

APP/20/00399 - 76 Southleigh Road, Havant, PO9 2QL - *Proposed single storey side and rear extension to form annexe with external alterations after demolition of attached garage.*

I have viewed the application and ecological records for the extension onto the bungalow building. Given the location and good condition of the property I would not consider the application site to support protected species. Therefore have no ecological concerns regarding this proposal.

Kind Regards

Rebecca Harvey
