Hi David

Thanks for your email. Due to Covid 19 restrictions, the Tree Preservation Order objection has not been able to be dealt with in time and therefore the TPO has lapsed. My opinion remains the same in that the Norway Maples should be retained as there is no arboricultural justification for removing them. As per my previous comments on this, if a decision is made to grant permission because the need outweighs the loss of the trees, full details and the location of the replacement tree planting should be supplied for approval prior to commencement to mitigate for their loss.

A Silver Maple and two Ash were also protected by the Tree Preservation Order but have always been shown for retention so have no further comment on this.

Kind regards,

Maria Stewart - Arboricultural Officer
