29 July 2020

To the planning case officer,

Dear Joseph Toole,

33 Maisemore Gardens, Emsworth, Hampshire
Planning Application: **APP/20/00444 (Adjacent AONB) (AMENDED PLANS 23 July 2020)**
Proposal for erection of two storey side extension forming a self-contained annex following the demolition of existing single storey side extension

Thank you for consulting The Chichester Harbour Conservancy concerning the above planning submission. The Conservancy is a non-statutory consultee.

The landscape of Chichester Harbour was recognised as nationally important when it was designated as an Area of Outstanding Natural Beauty (AONB) in 1964, through the National Parks and Access to the Countryside Act of 1949. The Conservancy was established by the Chichester Harbour Conservancy Act of 1971. The purposes of the Conservancy are the responsibility for navigation and the conservation of nature. The Countryside and Rights of Way Act of 2000 formally established the Conservancy as the Joint Advisory Committee for the AONB, with the purpose to conserve and enhance the natural beauty of the landscape.

In its role in managing the Chichester Harbour Area of Outstanding Natural Beauty (AONB), The Conservancy has considered the submitted proposal against the Conservancy's planning guidance and principles - including The Chichester Harbour Management Plan (2019-2024), The Chichester Harbour Planning Principles (Management Plan version April 2019), The Chichester Harbour AONB Landscape Character Assessment (CBA update 2019), and The Chichester Harbour AONB Joint SPD (May 2017), adopted by both Chichester District Council and Havant Borough Council.

Under the Chichester Harbour Conservancy officer fully delegated decision process, the Local Planning Authority (LPA) is hereby advised that the Conservancy makes the following comment in relation to the above application.

Chichester Harbour Conservancy Recommendation – No objection

The Conservancy recommends the following suggested considerations –

- schedule/samples of materials to be agreed prior to construction / as indicated on application forms / to match the existing on site.
- the glazed fenestration should employ tinted glass panels, and these should be fitted with working internal screen blinds to reduce light spillage during evenings and night-times (dark skies policies) in order to minimise and reduce the amount of light illumination emitted both to the surrounding skyline and to the visual horizontal aspect of the new window openings.
- a suitable condition to ensure that the proposed extension is used and therefore remains ancillary to the host dwelling and is not sold, let or occupied as a separate dwelling or used for tourism accommodation or similar purposed un-associated with the occupation of the main residential unit.

- the demolition of existing parts of the building and or outbuildings, should only be carried out following a competent wildlife survey having been carried out by a recognised ecologist surveyor to ensure that no protected species, such as bats, are present in the structures to be demolished so as to meet the legal requirements under the guidance of Natural England of The Wildlife and Countryside Act 1981 and The Conservation of Habitats and Species Regulations 2010.
- any and all external lighting shall be fitted with a suitable and effective cowl to focus the light-beam and illumination downwards and prevent light spillage above the horizontal and into the night sky, so as to comply with the Dark Skies approach within the AONB protected landscape and to limit disturbance to wildlife.

The proposal would have a localised impact on the character and appearance of the dwelling and the immediate surrounds. The proposal would have a visual impact on the AONB, but this is considered to be minimal.

Given its setting, the proposal is considered not to be unduly prominent to be detrimental to the character or the appearance of the Area of Outstanding Natural Beauty (AONB).

The proposal is unlikely to have any significant impact or effect on the AONB in terms of landscape character or in relation to wildlife conservation and protection.

The proposal has apparently been made with a level of understanding that would be considered partial in this regard. Given the householder domestic small scale of the proposal, this is regrettably not unusual or unexpected, and is unfortunate given the protected status of the AONB.

A copy of the Chichester Harbour Conservancy AONB Unit Planning Assessment Report is attached to this consultation response for your information and for open transparency public view.

Should you require any further clarification with regards to this recommendation please contact the CHC AONB Planning Unit.

Yours Sincerely,

David Rothery
Principal Planning Officer
Chichester Harbour Conservancy AONB Unit
