

This is a black and white architectural elevation drawing of a building facade. The structure features horizontal siding and a gabled roof on the left side. Three windows with dark frames are visible, each containing a simple cross-hatch pattern. A small white door is located on the right side of the facade. The drawing is a line art representation, showing the building's form and details without shading or color.

This is a black and white architectural elevation drawing of a two-story house. The house features a gabled roof with a wide overhang on the left side. The exterior walls are finished with horizontal siding. On the second floor, there are two large, double-hung windows. Below these, on the first floor, is a large, blank rectangular area, possibly a bay window or a large door. To the right of this area is a small, square window. Further to the right, there is a small porch or entrance area with a gabled roof and a door. The foundation is made of brick, and there is a small section of brickwork on the right side of the house. The drawing is a side elevation, showing the profile of the house.
