APP/19/07744

To whom it may concern,

I am writing to object to planning application APP/19/07744, on the grounds that this field is a flood plain.

The two photos were taken at random, there have been several other times when the field has been underwater. They show the amount of storm water to be dealt with, and hard standings and foundations will make matters worse.

It is possible for the road to be flooded which would cause traffic chaos.

Yours Sincerely

R Barnes
