

13th January 2020

Havant Borough Council
Public Service Plaza
Havant
PO9 2AX.

Dear Team,

Site: THE FERRYBOAT INN, FERRY ROAD, HAYLING ISLAND, PO11 0DG
Application Site

Proposals

Please refer to block plan drawing no. 596273-6 for clarification of sign positions.

We are proposing to replace four externally illuminated signs with four new externally illuminated signs. We are also proposing to replace the existing externally illuminated projection sign with a new style sign.

Signage Appearance

Please refer to visuals Ferry Boat Inn L1, L2, L3 & L4. Please also refer to existing drawing nos: 596273-1,2 & 3. Please also refer to proposed signage detail on drawing nos: 596273-4,5 & 6.

The building is in need of a refurbishment and we are proposing to incorporate the four sign written signs onto the building in white. Graphics of the lifebuoy are signwritten in red and white. All externally illuminated by light blue steel trough light which is fitted with very low energy warm white LEDs.

The projection sign is to be manufactured in blue aluminium panels fitted within a black double sided bull-nosed extrusion frame. Text is white vinyl and lifebuoy graphic is red and white vinyl which is applied to the panel faces. Panel hangs from a black steel projecting arm. Sign is externally illuminated by two black steel troughs fitted with low energy white LEDs.

Where possible all existing fixtures and fittings will be used.

If you require any further information, please get in touch.

Yours faithfully

Natalie Long
