Dear Ms Glover

Outline application for residential development (175 dwellings) with associated infrastructure.

Thank you for consulting the Highway Authority for the discharge of Condition 5 which relates to a Construction Traffic Management Plan. The applicant has submitted a Construction Method Statement (CMS) to support the discharge of this condition..

Contractor parking will be provided on site with 48 parking bays dedicated for staff and contractor parking. All contractors will be informed that no parking is allowed on Bartons Road and surrounding roads.

All deliveries to the site will avoid Horndean Road (South) and will take place during 0800 - 1800 Monday to Friday and 0900 - 13000 on Saturdays. It is advised that deliveries should avoid school drop off and pick up times and should be managed on site. The access plan as shown on drawing CMP-01 Rev C shows that a HGV can wait internally in the site to allow access of another HGV or vehicle to ensure that no waiting or vehicle overhang will occur on Bartons Road.

The CMS contains sufficient commentary on wheel washing provision which is considered acceptable to the Highway Authority and should remain in place for the duration of the construction period.

The CMS should be used as a live document and should respond to any changes on site. The Highway Authority is satisfied that the CMS is suitable and therefore the
