Site address: 53 Ward Court, Seafront, Hayling Island, PO11 0AL

Following my conversation with Mrs T Pickup in August, I made a note of the ideas we discussed as below. Unfortunately I had an accident that same night and have been in QA Hospital and Peterfield Hospital until this week with a broken arm and damaged ribs. I am housebound now and my arm is in plaster for another 3 weeks. I thought it advisable to let you know my objections.

Yours sincerely. Cathy Kennealy (owner of the above flat).

IDEAS FOR OBJECTIONS TO THE PENTHOUSE SCHEME

Effect on daylight – the fact that there is a large skylight in my hallway and one in each of the 2 bathrooms which will seriously affect the daylight.

I am an 81 year old widow with walking difficulties and live on the 4th floor and the loss of the lift while the intended work is being carried out would mean that I would not be able to leave my flat at all during this period.

The loss of our garden and lawn to make way for garages for new flats would seriously effect the layout, design and appearance of the block of flats.

We would be living on a building site for a long period.
