

Further to earlier discussions please find below the additional commitments discussed in respect of the Landscaping proposals associated with the above application:-

- The landscaping scheme will be planted in accordance with the submitted and approved details in the first available planting season after the erection of the mast.
- In the event that any of the landscaping were to die within the first 5 years of the date of the planting taking place, then these plants would be replaced with plants of a similar species and size.
- Ongoing maintenance for the Landscaping will be managed by the Operator until such time as binding arrangements are in place with the HCC Highways Department for the continued maintenance of the landscaping.

I trust the above is in order however please do not hesitate to contact me should you require anything else.

Kind regards

Rob Sinclair
Director
