Dear H.B.C. Planning.

I have objected before to the usage of Planning related to TOURNEBURY Woods wedding venue, on the noise issue, this has been recorded with the loss of H.B.C.

I objecting again as the venue wishes to become even larger & this will be the this end of the wedge as the owner will then make larger again if Planning is granted, as he does just what he likes.

MR. S. WEAVER I have asked many times how H.B.C. has let this venue carry out a wedding & other business over many years without Planning licence.

I would be grateful for answers, but I wish still to object to this planning on the noise issue and what might come later if the venue is increased with more accommodation which I am sure the owner wishes for the future.

Yours

H. Tenny
