7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree

from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

- 7.3 This application to undertake work to a tree protected by a Tree Preservation Order relates to the proposed pruning of one large mature Oak tree in the rear garden of the property.

Because of its size and position it is considered to offer significant public amenity value.

The work proposed is considered to be reasonable and it will allow greater solar gain to the garden area without detriment to either the health of the tree or the public amenity value it has.

No objections to the application have been received.

8 **Conclusion**

The work proposed is considered to be appropriate and proportionate and therefore permission should be granted.

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/19/00867

(A)

(B) for the following reasons/subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).
Reason: In the interests of tree health and safety.
- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than 24/10/2020.
Reason: To control the timing of the works
