7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

- 7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.
- 7.3 This application to undertake work to a tree protected by a Tree Preservation Order relates to the proposed pruning of one mature Silver Birch tree located in the rear garden of the applicant's property.

The tree has been pruned before and appears to be healthy. The work will not affect the tree. Due to its position in the garden it has a limited public amenity value.

No objections to the application have been received.

8 **Conclusion**

The work proposed is appropriate and proportionate and therefore permission should be granted.

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/19/01129 subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).

Reason: In the interests of tree health and safety.

- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than 09/01/2021.

Reason: To control the timing of the works.
