NOTES:
Levels are based on OS datum determined from National GPS Network using OSGB02.
The level is to traditional benchmarks is usually better than 0.05m, but please note that if any difference is up to 0.05m and caution should be exercised when comparing to other level data based on OSGB02 such as Water Authority sewer records.
Coordinates based on OS grid determined from National GPS Network using OSGB02.
No assumptions should be made regarding the intersection of boundaries.
Drainage details have been observed from surface inspection and should be verified if of critical importance.
