FAO Lewis Oliver

APP/19/01030 | Demolition of existing building on 10A, The Pallant and adjacent existing building remaining to the rear of 11 East Street; Erection of 2No. 3 bed Town Houses , plus 1No. 1 bed flat and 1No. 2bed maisonette. | 10A The Pallant, Havant, PO9 1BE

Thank you for sending through the HRA and Appropriate Assessment for the above application.

Solent Recreation Mitigation Strategy - no objection subject to mitigation

This application is within 5.6km of Chichester and Langstone Harbours SPA and will lead to a net increase in residential accommodation. Natural England is aware that Havant Borough Council has adopted a planning policy to mitigate against adverse effects from recreational disturbance on the Solent SPA sites, as agreed by the Solent Recreation Mitigation Partnership (SRMP).

The Appropriate Assessment has taken this into consideration, therefore, providing the appropriate mitigation is secured by any approval, Natural England are satisfied that the applicant has mitigated against the potential adverse effects of the development on the integrity of the European site, and has no objection to this aspect of the application.

Nutrient Neutrality – no objection subject to mitigation

Natural England notes that your authority, as competent authority, has undertaken an appropriate assessment of the proposal in accordance with Regulation 63 of the Conservation of Species and Habitats Regulations 2017 (as amended). Natural England is a statutory consultee on the appropriate assessment stage of the Habitats Regulations Assessment process.

Natural England is aware that your authority has adopted an interim strategy using Grampian conditions to address nutrient impacts from developments currently in the planning system and we have been working with the Council to develop this approach. It is noted that the mitigation would be secured through a Grampian condition, requiring the mitigation package to be agreed, provided to the Council and implemented prior to the occupation of the development.

Your appropriate assessment concludes that your authority is able to ascertain that the proposal will not result in adverse effects on the integrity of any of the sites in question. With regard to deterioration of the water environment, it is noted that the approach to address the positive nitrogen budget for this development is to offset against the interim strategy, with measures to ensure this approach can be adequately secured and accounted for.

It is Natural England's view that in this case, provided the Council as competent authority, is satisfied that the approach will ensure the proposal is nutrient neutral and the necessary measures can be fully secured; Natural England raises no further concerns.

Please consult Natural England on the discharge of the Grampian condition.

Kind regards

Natural England offers two chargeable services – The Discretionary Advice Service ([DAS](#)) provides pre-application, pre-determination and post-consent advice on proposals to developers and consultants as well as pre-licensing species advice and pre-assent and consent advice. The Pre-submission Screening Service ([PSS](#)) provides advice for protected species mitigation licence applications.
