Subject: APP/15/01435 Land south of Bartons Road, Havant 19.0281

Dear Rachel,

APP/15/01435 | Outline application for residential development (175 dwellings) with associated infrastructure.(01.12.16). Request to discharge condition No. 4,6,10,11,12 and 13 (22.01.19). | Land south of Bartons Road, Havant 19.0281

Thank you for consulting me on this application. Please accept my apologies for the delay in responding to you.

The application does not actually contain any explicit information relating to condition 13 ecology: I had previously commented on an ecological mitigation strategy submitted as part of APP/18/00453. I advised that the information contained within that application was sufficient except for details on site lighting, which at that time were unresolved.

The lighting design plans submitted with this application appear to demonstrate that levels of 0.4lux are achieved along the proposed ecological buffer zones at the site's boundaries. This seems to be in accordance with the ecological mitigation strategy, although I would request that the ecologist provides confirmation that this is the case.

If you have any queries please don't hesitate to contact me.

Kind regards,

Tristan

Tristan Norton
