Subject: CLEUD application APP/19/00889 [IM-Active.FID2141909]

Dear Mr Weaver

My client and I have previously indicated to you that he and my firm are preparing a more substantial CLEUD, with c.1,000 pages of supporting documents.

Given the volume of materials, that is taking a little longer than I had previously anticipated, but I expect that the application will be made next week
I felt it appropriate as a courtesy to let you know.

In undertaking the preparation of the further CLEUD application, it has become very clear to my colleagues and me that it would be much easier for all concerned to deal with the matters which are the subject of claims for lawfulness in the one "wrapper", not least as the evidence and submissions as to operational development and as to change of use are interrelated.

In that light and for everyone's convenience, my client wishes to withdraw the CLEUD application currently with the Council (App/19/0089). Please take this as my communication of that to you and please could you confirm that you will remove it from the Council's planning portal or mark and treat it as withdrawn, whichever is the Council's usual policy.

Kind regards

James Pavey
