Dear Lesley

Further to my submission of Tuesday this week, I am now pleased to attach an amended landscape strategy plan which reflects the recent layout amendments, and also provides specific detail for the boundary with the recreation ground as agreed in direct dialogue between the landscape officer and the project landscape consultant.

The attached addresses all of the relevant comments raised within the landscape consultation response, I would be grateful if you would place it with the planning application and treat it as an amendment superseding the earlier version with revision B.

Thank you for your ongoing assistance with this matter.

Kind regards

Alistair
