CHICHESTER AND LANGSTONE HARBOUR

Proposed native buffer mix will be planted within the open space where it will integrate within the wider landscape whilst creating a landscape buffer.

Proposed native trees to creating a visual buffer to the winter bird mitigation area.

Proposed winter bird mitigation area
Refer to drawing: BDWS2066010

Proposed location of education board and vehicle access for maintenance.

Proposed pumping station location.

The Sustainable Urban Drainage System (SUDS) features in the northern part of the site and feeds into the SUDS attenuation located in the proposed winter bird mitigation area.

Retention of hedgerows and tree lines.

The orchard, a central public open space featuring fruit trees with a wildflower meadow and bulbs to assist wildlife interest within the open space.

Proposed decorative street tree planting to provide visual interest and seasonal colour with clear stems to allow visibility.

Emco Education Printers

Hedges are proposed to demarcate plots, adding visual interest and to create habitat diversity.

Decorative shrubs which are mostly evergreen to the front gardens providing year-round interest.

Proposed Local Equipped Area of Play to be provided within the open space, the play equipment is to reflect the style of development.

Trees to development frontage to create an attractive entrance.
