

1. This drawing is to be read in conjunction with drawing NOS. DTG78901-40.
2. Existing outside drainages is shown on drawings DTG782801-04.
3. Proposed drainage drainages is shown on drawings DTG78907-13.
4. All adopted drainage and connections to the sewerage system are to be constructed in accordance with 'Sewers for Adoption' 7th Edition or as stipulated in the Southern Water Adoptions to the Southern Water Drainage Code.
5. Connections to the adopted drainage system are to be subject to the approval of Southern Water the Drainage and Sewerage Authority. Diverted, divested, build close to/over sewers, and new sewers are to subject to SW approval. All other alterations is to remain private.
6. All pipes and fittings to be adopted, or connecting to adopted sewers, and/or subject to Southern Water the Drainage Authority (min 40kN/m) to BS EN 295 & BS655 (1916) or Concrete pipes to BS EN 1916 & BS655 (1916) or Part 1 of the Thermal Insulation of Buried Sewer pipes to BS EN 13476-1-4 and WIS 4-35-01 (class 8kN/mkg), or Ductile Iron to BS EN 588, and be capable of withstanding 4000 PSI jointing pressure.
7. Cover levels shown are approximate. Covers and frames are to be to finished ground levels and falls.
8. Before commencing construction the Contractor must check the invert levels of existing sewers to which connections are made. In addition the Contractor must locate and determine the position of the existing spurs to which the new connections are to be made. Additional spur/manhole connections are to be agreed with the relevant authority. Any discrepancies are to be notified to the Engineer immediately, prior to construction.
