Landscaping Scheme Schedule

Notes

1. Shrub beds to be 100% top soil.
2. Shrubs to be grouped in solid blocks of similar species (min 5 per group).
3. Plant beds to be mulched with 75 mm deep bark mulch. Mulch to be well matured with chip sizes not to exceed 50 mm.
4. Tree pits to be minimum 1 m x 1 m max depth achievable with pit back filled with quality multi purpose top soil to BS 3882:2015 with layers consolidated every 150mm.
5. Proposed trees to be 14-16cm girth 47L container.

Trees to be planted in accordance with the landscape plan as well as adhering to current recognised horticultural practices.

Trees to be planted so that the root ball is equal or slightly than the surrounding soil surface.

Double stake support staking shall be utilised if necessary in accordance with recognised standards.

Watering should be applied to the base of the tree evenly distributed over the entirety of the root ball to encourage even root development on planting and thereafter in spring and throughout the summer on a regular basis as necessary.
