

twin bike shelter - 3ft x 6ft - 2 bikes*

"Put £6000 of bikes in this for a whole year in my front garden. No-one even tried to break in. It looks bomb proof, zero rust, lock is a beast"

- Carlos

twin bike shelter.

The 'Twin' bike storage unit is the perfect way of storing two bikes securely in a discreet manner. Designed as a space saving storage unit, the twin bike store is ideal for areas where space is restricted but bike security is still important. The twin bike shelter is accessed from the end so the width of the unit is kept to a minimum - ideal for use down the side of a house or flat. The twin bike shelter is suitable for adult or children's bikes and includes

2 kit hooks for storing your bags and helmet with your bike. The unit is made from tough galvanised (weatherproof) steel featuring a tough 3-point pick-and-drill resistant locking system. This shelter has been designed to be bolted to a concrete base, preventing any attempt to lift or carry the (15 stone) locker away. A stylish vented front allows air to flow inside and keeps condensation to a minimum.

"It's well manufactured, safe and strong, even with two bikes inside there's enough room for some power tools"

- Dave
