WELCOME

English Heritage Buildings has employed tried and tested methods for decades to create high performance oak frames that are built to last. Quality is at the heart of everything we do, from the timber we select right through to the design and manufacturing processes

we adopt. By blending modern manufacturing techniques with traditional quality craftsmanship, English Heritage Buildings can take your design brief and craft it into something truly special. Our precise machining methods ensure your frame is supplied exactly to the specification you have requested.

We are proud to say our carpenters and machinists have been producing timber frames for decades and therefore possess a wealth of experience, realising the dreams of many happy customers. To help you get through your oak frame journey, our team of dedicated sales consultants are available at every step of the way and can answer any questions that you may have about your frame or assist with general planning advice.

WHAT TO EXPECT

FIXED PRICE QUOTES

Our bespoke quote system has been especially designed to be able to give you accurate prices for your oak frame. This means that the price we quote is for the actual building specification that has been set out in your quote allowing us to give you FIXED PRICE QUOTES. Many other companies will give a rough guide for a similar building, meaning that their quoted prices can change during the course of your project due to engineers' requirements or simply because of inaccuracies in their original quote. The only time that our price will change is if you want to change the specification.

CLARITY OF OFFERING

Our detailed quotes clearly set out the items which are included, meaning that you can easily confirm that we have quoted all of the items that you require from us and have complete CLARITY OF OFFERING. Our confirmation drawings will also specify the items which we have included in your quote so that you will understand exactly what you are getting for your money before you commit to the order!

NO HIDDEN EXTRAS

Unlike many other companies, there are NO HIDDEN EXTRAS in your quotation. Our supply price includes Structural Calculations and a 10-Year Frame Guarantee.

WHY WE ARE DIFFERENT

PLANNING SERVICE

Owning something so special has become simpler than ever, and that's because we offer all our customers a 'hassle-free' planning service for peace of mind. We understand that planning can sometimes be complex and time consuming, so we use our expertise to take away the hard work.

FRAME GUARANTEE

We understand that you need reassurance that your building will stand the test of time, and therefore we offer a 10-year frame guarantee to give you absolute confidence and peace of mind when you buy an oak frame from English Heritage Buildings.

QUALITY ASSURANCE

We are the ONLY oak frame manufacturer to be awarded the prestigious Exova BMTRADA Q-Mark. This mark is independent proof that our buildings are fit for purpose and will stand the test of time.

OUR PORTFOLIO

TRADITIONAL GARAGES

A garage doesn't just have to be functional; it can also be beautiful. Our designs blend seamlessly with the architecture of your existing building and can harmonise with the surrounding environment.

GARAGES WITH ROOMS ABOVE

English Heritage Buildings takes pride in offering a bespoke design service to create totally unique buildings. Our garages with upper floors provide living, work or storage space over a beautifully-crafted, oak-frame garage.

COMPLEXES

By combining our different models you can create mixed use outbuildings - ideal for garages, annexes, offices, holiday lets and storage. Complexes allow you that flexibility to specify a multi-functional building to suit your needs.

BARN & STABLES

Our barns and stables represent equine living at its best. From small stables to more elaborate oak framed equestrian buildings, our oak frames can be constructed with many different features and in many different styles, including bays for hay, feed and machinery storage.

Proud to have realised the oak frame building dreams of over 6000 satisfied customers.
