Subject: RE: Application No 19/00284 4 Penner Road Havant

Daphney,

We have been in contact with Portakabin regarding the possible finishes options and they have supplied the attached images.

Images 182 and 183 show brick slips which could be applied to the two long sides and the exposed end elevation in colours to match the existing elevations.

The two screenshots show an alternative vinyl wrap (on a different type of module to the one proposed) which would also be coloured to match the existing elevations.

The brick slips are nearly double the cost of the vinyl wrap but we thought we should provide both options to you. Please let us know your comments.

We can confirm agreement to the extension to 12 September 2019.

Regards

Steve
