Dear Mrs Chisnall

Thank you for emailing me the plans for the proposed development of 23 Kings Road Cowplain. Whilst we welcome the development of the site next door to us I would like to inform you of our reservations for one aspect of the development.

We would like to make known our Concerns for privacy from the window closest to us in the master bedroom. This window would dominate our conservatory, which is used as a bedroom for my mother. My mother sleeps, washes and resides in our conservatory, and the window would form a gross lack of privacy for her when she is washing and changing.

The bedroom in the dormer has three windows so I'm sure the loss of one wouldn't affect the aesthetics or light (as the room is south facing) or at the very least we would request a window that has obscured glass and a non- opening window.

I have marked on the plans the window that concerns us.

Thank you for your promptness and professionalism in dealing with this matter thus far.

Yours Sincerely

A handwritten signature in blue ink, appearing to read 'Emma Collier'. The signature is fluid and cursive, with the first name 'Emma' being more prominent than the last name 'Collier'.

Mrs Emma Collier.
