Town and Country Planning (Development Management Procedure) (England) Order 2015
Discharge of Conditions Application

Application Number: APP/18/00437

Site Address: 88A Jubilee Road, Waterloo, PO7 7RE

Description: Change of use from business (B1) to special needs school (D1) to provide new food tech and design technology classroom/workshop teaching block; including external alterations and new canopy; six additional car parking spaces; new 1.8m high fencing to parts of site; and change of use of residential garden to school grounds. (Approved 13.08.18). Request to Discharge Conditions 6 & 7 (17.10.18).

This decision relates to your request to discharge conditions which was valid from 17/10/2018.

Havant Borough Council as Local Planning Authority hereby APPROVES the submitted application as meeting the information requirements of the following Conditions of Planning Permission APP/18/00437.

The conditions in respect of which information has been submitted are:

Condition 6:

No development shall take place until an investigation and risk assessment has been submitted to and approved in writing by the Local Planning Authority. The assessment shall investigate the nature and extent of any contamination on the site (whether or not it originates on the site). The assessment shall be undertaken by competent persons and a written report of the findings submitted to and approved in writing by the Local Planning Authority before any development takes place. The submitted report shall include:

- 1) A site walk-over survey &/or sufficient desk-based research to identify;
 - All relevant previous uses of the site
 - Potentially significant contaminants associated with those uses
 - Uncertainties relating to previous use or associated potential contaminants
 - A conceptual site model identifying all relevant sources, exposure pathways and receptors, and;
 - A summary of potentially unacceptable risks arising from contamination at the site.

- 2) Site investigation based on (1), to provide sufficient data and information to adequately identify & characterise any physical contamination on or affecting the site, and to inform an appropriate assessment of the risks to all receptors that may be affected, including those off site.

3) The results of an appropriate risk assessment based upon (1) & (2), and where unacceptable risks are identified, a Remediation Strategy that includes;

- appropriately considered remedial objectives,
- an appraisal of remedial &/or risk mitigation options, having due regard to sustainability, and;
- clearly defined proposals for mitigation of the identified risks.

4) A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in the Remediation Strategy (3) are complete, identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

The development shall thereafter be carried out in full accordance with the duly approved remediation strategy and a verification report submitted to and approved in writing by the Local Planning Authority before any of the building(s) hereby approved are first occupied.

Reason: Having due regard to policies DM10 of the Havant Borough Adopted Core Strategy [2011] and DM17 of the Havant Borough Local Plan (Allocations) [2014], Contamination may be present at the site as a result of both previous & current land uses (&/or activities) at the site and in the vicinity that could pose a risk to future users of the development.

Details submitted:

Site Investigation Report and Appendices YE6195

Condition 7:

Prior to the occupation of any relevant part of the permitted development, any verification report required in accordance with condition 6 shall be submitted to and approved in writing by the Local Planning Authority.

The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan, and must demonstrate that site remediation criteria have been met.

Where longer-term monitoring of pollutant linkages is identified as being necessary, the report shall clearly set out plans for monitoring, provision for maintenance, relevant triggers and contingency actions (a "long-term monitoring and maintenance plan").

The long-term monitoring and maintenance plan shall be implemented as approved.

Reason: Having due regard to policies DM10 of the Havant Borough Adopted Core Strategy [2011] and DM17 of the Havant Borough Local Plan (Allocations) [2014], Contamination may be present at the site as a result of both previous & current land uses (&/or activities) at the site and in the vicinity that could pose a risk to future users of the development.

Details submitted:

Phase 2 Site Investigation Report & Appendices

Reasons for approval

The details hereby approved are considered to be in accordance with the relevant adopted policies of the Council, in particular the policies contained within the Havant Borough Local Plan (Core Strategy) 2011.

- (1) This notice only relates to the decision of Havant Borough Council as Local Planning Authority under the Town and Country Planning Acts. It does not relate to any other application that may be required under the Building Regulations or under any other Act, Regulation, Byelaw or Order where the Council's approval may be needed. For further guidance as to the need for consent under the Building Regulations please phone 023 9244 6573.
- (2) Any failure to adhere to the details of the approved plans, and other documents or to comply with any conditions listed above may lead to enforcement action being taken by the Council. If you wish to depart from the approved details or conditions in any way you should contact the Planning Development Service at the Public Service Plaza or by telephoning 023 9244 6015.
