Dear Sirs,

Proposal: Development of 50 new dwellings together with access, landscaping and open space.

Site: Land at Lower Road, Havant PO9 3NB.

APP/19/00427

Further to our correspondence dated 29/05/2019 concerning the above planning application consultation, Southern Water has recently undertaken more detailed network modelling as part of a network growth review.

The results of this assessment, to our current modelling procedures and criteria, indicates that the additional foul sewerage flows from the proposed development will not increase the risk of flooding in the existing public sewerage network. Southern Water can hence facilitate **foul sewerage disposal** to service the proposed development at the proposed discharge point.

Southern Water requires a formal application for a connection to the public foul sewer to be made by the applicant. We request that should this application receive planning approval, the following informative is attached to the consent:

"A formal application for connection to the public sewerage system is required in order to service this development. Please contact Southern Water, Sparrowgrove House Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk". Please read our New Connections Services Charging Arrangements documents which has now been published and is available to read on our website via the following link <https://beta.southernwater.co.uk/infrastructure-charges>. "

All other comments in our previous response dated 29/05/2019 remain unchanged and valid.

Yours Sincerely
