

This architectural drawing shows the front elevation of a building. The facade is composed of several rectangular elements. On the left, there is a small, narrow vertical window. To its right is a larger, multi-paned window. In the center, there is a door with a small window above it. To the right of the door is a tall, narrow vertical window. Further right is a large, multi-paned window. On the far right, there is a small, narrow vertical window. The drawing is a simple line drawing with no shading or color.

This architectural drawing shows a side elevation of a building. On the left, there is a large, multi-paned window. To the right of the window is a door with a small transom window above it. The building has a flat roof and a simple, rectangular form. The drawing is a line sketch with no shading or color.

Architectural elevation drawing of the rear facade of a building. The drawing shows a two-story structure with a flat roof. The ground floor features a central entrance door with a transom window, flanked by windows and a large window on the right. The first floor has three windows. A chimney is located between the first and second floors. A small staircase is visible on the left. The drawing is annotated with callouts for materials and construction details.
