Observations / Comments:

I have studied the submitted noise management plan, and am satisfied that this condition can now be discharged.

It should be noted that the noise management plan is a live document, and as such can be amended in consultation with Environmental Health at Havant Borough Council, should the need arise in response to any justified noise complaints, submitted by nearby residents. This may also include additional acoustic mitigation measures requiring implementation, to ensure that any noise generated, which is audible at the site boundary, does not cause nuisance to the occupants of any nearby properties.

If you should require any further clarification of the above, please do not hesitate to contact me.

Mr. Mark Moss

Regulatory Officer, Environmental Health
