Appendix F – Masterplan
Appendix G – Sample Travel Survey Questionnaire

1.0 INTRODUCTION

1.1 This Residential Travel Plan (TP) has been prepared by Charles & Associates Consulting Engineers Ltd (C&A), on behalf of White Farming Limited, to support an outline planning application for a proposed residential development of up to 72 dwellings on a site know as Land West of the Havant Crematorium, Bartons Road within the district of Havant Borough Council (HBC). The location of the site is illustrated in **Figure 1.1**.

1.2 The proposed residential development comprises a mixture of 1, 2, 3 and 4 bedroom units.

1.3 Pre-application discussions were held with Hampshire County Council (HCC) which is the local highway authority for the roads with the area under consideration. During the discussions, it was determined that a TP would be required so as to encourage sustainable choices to/from the site although the number of dwellings falls below the number required for a travel plan (which is 100 or more households as per HCC requirements).

1.4 This application has the potential to be followed by a second application within the adjoining planning authority, East Hampshire District Council (EHDC) that will add a further circa 78 dwellings to the conurbation, as such this travel plan also covers this eventuality, should it occur.

1.5 This TP has been produced in accordance with HCC's Travel Plan guidance 'A Guide To Development Related Travel Plans' (January 2009). As such, it is to form part of the S106 Agreement for the site.

1.6 HCC's TP guidance recommends TPs to be assessed using the TRACES (**T**ransparent, **R**ealistic, **A**chievable, **C**ommitted, **E**nforceable and **S**ustainable) criteria. Therefore, this TP has been considered against these principles using the evaluation templated provided by HCC. The results of the evaluation are included within **Appendix A**.

1.7 This TP sets out site specific initiatives aimed at improving the availability and choice of travel modes to and from the development for all residents and visitors to the site. Together with the Transport Assessment (TA) submitted with this application, the TP will aim to be the mechanism by which overall travel demand will be managed and monitored.

1.8 The overall aims to be achieved through the implementation of a TP have been considered. Travel management objectives will focus on reducing trips made by car as well as considering resident's travel patterns. The overall travel management objectives will be:

- To minimise the number of single occupancy car trips to and from the site; and
- To facilitate and promote walking, cycling and public transport trips to the site.

Report Structure

1.9 **Section 2.0** of this report sets out the policy and guidance context against which the proposal will be judged. **Section 3.0** details the aims and objectives of this TP.

1.10 **Section 4.0** provides a site audit which sets out the local context in terms of the highway network, along with a detailed review of the local accessibility and access to non-car modes of travel.

1.11 **Section 5.0** details the proposed development and the site access strategy. Following on from this, **Section 6.0** sets out the likely targets which will be confirmed once initial site surveys have been completed.

1.12 **Section 7.0** considers the measures that will be implemented, alongside the consultation and partnerships likely as part of the TP.

1.13 **Section 8.0** sets out the roles and responsibilities of the Travel Plan Co-ordinator (TPC) and an indicative action plan outlining the implementation programme for the proposed measures.

1.14 **Section 9.0** provides information on when and how monitoring of the TP will be undertaken and **Section 10.0** provides information on funding and budgets.

1.15 Finally, **Section 11.0** summarises the report.

2.0 POLICY CONTEXT

National Policy

National Planning Practice Guidance

2.1 National Planning Practice Guidance (NPPG) was published in March 2014 and sets out national guidance on a range of issues including Travel Plans. This guidance details when a Travel Plan is required, how the need for and scope of a TP should be established and what information should be included within a plan and how it should be monitored. Most importantly this includes:

- Benchmark travel data including trip generation databases.
- Information concerning the nature of the proposed development and the forecast level of trips by all modes of transport likely to be associated with the development.
- Relevant information about existing travel habits in the surrounding area.
- Proposals to reduce the need for travel to and from the site via all modes of transport.
- Provision of improved public transport services.

Regional Policy

2.2 Given the site's location within Hampshire, this TP has been produced in accordance with the HCC's guidance document 'A Guide to Development Related Travel Plans' published in January 2009.

2.3 This guidance document sets out that a "Full" Travel Plan is required where the likely end user of the development is known. It also highlights that all aspects outlined in Section 4.2 of the document should be included in a TP, and an evaluation criteria should be followed to ensure that the TP is compliant with local requirements.

2.4 The document highlights the three main purposes of having a travel plan as part of the development process. These are:

- Ensuring that development takes place in location and in ways that minimise the impact of this additional demand;
- Increasing accessibility and ensuring that opportunities are provided for people to travel and from the site in a variety of ways;
- Reducing dependence on the use of the car.

2.5 The document also specifies five key guiding principles for an effective Travel Plan as follows:

- **Site specific** – every site is unique and the measures will be determined by the opportunities and constraints of the site itself, the nature of uses and occupation, the location of other facilities and the existing transport provision.
- A combination of **hard measures** – site design, improved infrastructure and new services and **soft measures** – marketing, promotion, use of technology and improved information provision.
- A **holistic package** where individual measures are integrated into the new development as part of the design, marketing and occupation of the site.
- One that includes measures to support and promote **walking**, **cycling** and the use of **public transport**.
- One that addresses the issue of **parking provision**, its quantity, management and cost of the user.

2.6 A range of hard/physical measures and soft measures that should be considered in residential travel plans are provided within Appendix F of the guidance document. It includes a broad range of measures that need consideration from early development of the site layout and design such as pedestrian and cycle links and parking facilities to development of the TP such as target setting and Travel Plan Co-ordinator and management.

Local Policy

HBC Local Plan 2011

2.7 The Core Strategy was adopted by HBC in March 2011 and is one of the documents within the Havant Borough Local Development Framework. It is the principal document setting out the broad detail and direction of development in the borough. The Core Strategy describes the council's long-term vision and objectives for what the borough will be like as a place in 2026.

2.8 With regard to transport infrastructure, the Core Strategy sets out the following Development Management Policies relating to sustainable travel and the need of a Travel Plan:

DM11 Planning for More Sustainable Travel

The Council will seek to ensure that every opportunity is taken to increase integration of sustainable travel modes and availability of non-motorised modes by appropriate measures including:

1. *Securing on-site and/or off-site interventions that promote integrated travel and access by non-motorised modes.*
2. *Requiring safe and secure vehicular and cycle parking and turning facilities to adopted standards.*
3. *Securing appropriate improvements to public and community transport (including infrastructure requirements) in accordance with the Hampshire Local Transport Plan and (where applicable) the relevant sub-regional transport strategy.*
4. *Proposals for reducing opportunities for informal parking in the area surrounding the development where this would impact on the capacity, operation and safety of the local highway network and/or the amenity of the locality.*
5. *Ensuring that new developments are located and designed at the outset to encourage lower vehicle speeds and safe, permeable, inclusive layouts that integrate with existing pedestrian, cycle and public transport routes. This will facilitate and encourage short distance trips by cycle and walking, including to public transport interchanges.*

DM12 Mitigating the Impacts of Travel

New developments will be required to mitigate their travel impact, including the environmental impacts of travel (such as noise, air and visual pollution) and impacts on amenity, health and climate change by ensuring that, where relevant, the following criteria are met:

1. *Adequate provision is made for integrated and improved transport infrastructure or appropriate mitigation measures, through direct improvements and S106 contributions in accordance with the Hampshire County Council Transport Contributions Policy.*
2. *The submission of a transport assessment and **travel plan** alongside any planning application on proposals for major development or where a proposal is likely to have significant transport implications.*
3. *The submission of a transport statement must accompany planning applications to explain changes to travel demand.*
4. *A bond is provided which will be used to mitigate negative travel impacts of the development, should the travel plan fail to achieve its targets. This bond will be held by the relevant local transport authority.*
5. *In relation to outline planning applications, a framework for the preparation of travel assessments and **travel plans** will be submitted with the planning application proposals.*

EHDC Local Plan 2014

2.9 Local Plan: Joint Core Strategy was adopted by EHDC in June 2014 and is one of the documents within the East Hampshire Local Development Framework. It is the principal document providing a policy framework that plans for new development to deliver the vision what the district should be like by 2028.

2.10 With regard to transport, EHDC's Joint Core Strategy **Policy CP31** for Transport and Access sets out that a range of mitigating measures should be included within development proposals and, where appropriate, will be required to:

a) enhance the quality, viability, availability, accessibility and frequency of public transport and alternative community transport

provision, especially in rural areas, to ensure that those without access to a private car have access to services and facilities necessary for their well-being;

b) *protect and provide safe and convenient cycle and pedestrian links that integrate with existing cycle and pedestrian networks, such as the South Downs Way and Shipwrights Way, and reflect the amenity and rural character of the area;*

c) *ensure that highway design and associated signing meets the needs of vehicular traffic and the need for safety whilst also placing a high priority on meeting the needs of pedestrians, cyclists and public transport users and without detriment to the quality of the environment;*

d) *plan for new highway infrastructure that will reduce congestion, improve highway safety, increase accessibility to the District's town and district centres and enhance economic prosperity of the District;*

e) *improve access to rail stations at Rowlands Castle, Petersfield, Liss, Liphook, Alton and Bentley Station by sustainable modes of transport and, where appropriate, provide additional car and cycle parking at rail stations;*

f) *provide adequate, convenient and secure vehicle and cycle parking in accordance with adopted standards;*

g) *ensure that the type and volume of traffic generated would not harm the countryside or the rural character of local roads;*

h) *protect sunken and rural/green lanes so that their convenience and safety are enhanced for their users, and their ecological, landscape and recreational value are enhanced;*

i) *improve access for people with impaired mobility to all forms of transport and to all developments to which the public will reasonably expect to have access; and*

j) *produce and implement transport assessments and travel plans for proposals that are likely to have significant transport implications;*

k) *include measures, to be funded by the developer, that address the impact of the new development so as to ensure the continued safe and efficient operation of the strategic and local road networks.*

3.0 AIMS AND OBJECTIVES

3.1 The main aim of this TP is to promote sustainable travel to future residents of the proposed development site from the day of occupation, setting sustainable travel patterns to and from the site from the outset. The core aim is supported by a number of sub aims, namely to:

- ***Inform*** all involved with the development (especially the future residents) of the sustainable travel choices available;
- ***Influence*** how journeys are made by marketing the sustainable travel choices available and making sustainable travel both easier and more attractive; and
- ***Include*** residents in the monitoring of travel behaviour and enabling feedback to the Developer and Local Highway Authority;

3.2 The overarching objective of this TP is to reduce the car dependency of future residents and visitors travelling to and from the proposed development. The key to achieving this is to influence the travel patterns through providing infrastructure and encouraging residents to make modal shift to sustainable modes of travel where possible.

3.3 The TP objectives set out below demonstrate how the above aims will be achieved:

- To minimise the level of car travel, especially single occupancy vehicle use;
- Promote sustainable modes of travel such as walking, cycling and public transport use – including information on routes/facilities suitable for disabled access;
- To minimise the impact of the development on the local road network;
- To enable all residents of the development to have informed choice about their travel options.

3.4 The TP is a dynamic living document and requires regular monitoring, reviewing and adjustment to make sure that it is achieving its set targets. Therefore, the aims and objectives may also be reviewed over the period of the plan and updated in consultation with HCC.

4.0 SITE AUDIT

4.1 The proposed site is located on land west of the Havant Crematorium, north of Bartons Road as illustrated in **Figure 1.1.** The site is bordered to the west by the recent Bartons Rise residential development (housing allocation site UE3a), to the north and west by existing woodland and to the north east and east by Havant crematorium and its access road. At the time of writing the developable area of the site is located between Bartons Road and the borough boundary which crosses the site east to west.

4.2 The site audit of the existing conditions has been completed as part of the TA and is summarised in the following sections.

Walking and Cycling

4.3 Walking and cycling both have the potential to substitute short car trips, particularly those less than 2km for journeys on foot and 5km for journeys by bicycle. Both modes often form part of a longer journey by public transport particularly for ongoing journeys by rail. Considering this, walking and cycling provisions available in the area are discussed below.

4.4 Bartons Road runs east west and is provided with verge to the north along the site frontage and an approximately 2m footway to the south opposite the site.

4.5 Bartons road also benefits from the recent footway improvement implemented in May 2017. These being implemented as part of the land north of Bartons road development built by Linden Homes. These works included the provision of a 2.5m wide footway just west of the site, connecting back in to the existing provision as well as the provision of dropped kerbs and tactile paving. Details of these are provided at **Appendix B** for information.

4.6 The development known as land south of Bartons road (APP/15/01435) has achieved planning consent. This development incorporates substantial improvements along the southern side of Bartons road with widening of the existing footway, to provide a shared footway cycle route between the western pedestrian / cycle access and New Lane to the west. These improvements are detailed at **Appendix C**.

4.7 The existing footways including recent and pending improvements to those on Bartons Road, provide the opportunity for connections to be made to the proposed site from the wider pedestrian and cycle network. These provide safe pedestrian and cycle access to the nearby bus stops and local facilities (discussed further below) and ultimately Havant town centre illustrated at **Figure 4.1**.

4.8 Local residential roads in the area, which are although not specifically designated as cycle routes, are considered to be safe routes for on road cycling.

4.9 The existing cycle network is illustrated at **Appendix D**. This provides useful routes via New Lane, Southlea Road, Wakeford Way along with further routes beyond these. There are currently a number of routes which do not provide contiguous routes between the site and these cycle routes. These connections have been improved or are to be improved by other local development as set out above.

4.10 National Cycle Network Route 22 can be accessed from Petersfield Road to the west and Route 2 from Southleigh Road to the south. These provide good quality cycling routes through to Havant town centre as well as Emsworth.

4.11 There are also a number of public rights of ways available close to the site as illustrated in **Figure 4.2**. This shows footpaths 26 and 63 linking Wakefords Way and Comley Hill to the north west of the site. Similarly, footpath 62 links Southleigh Road through to Stanbridge Road and Mill Lane to the south west of the site.

Public Transport – Bus

4.12 Bus routes 20 and 21 run at a frequency of two services per hour during daytimes Monday to Saturday from bus stops located on Wakefords Way, 500m from the combined pedestrian cycle and emergency access. These services give access to Leigh Park, Portsea and Farlington.

4.13 Bus routes 27 and 28A serve bus stops on Southleigh Road approximately 1.1km from the site. These are accessible via Land to the south of Bartons road and Japonica Way to the south of the site. Route 27 runs every two hours, between Rowlands Castle, Havant and Emsworth Hospital, Monday to Saturday. Route 28A is a school service and runs once per day in each direction on school days.

4.14 Full timetables and route maps for the above buses are provided within **Appendix E**.

Public Transport – Rail

4.15 Warblington railway station is within 2km of the site with Havant railway station 2.5km away. As shown on **Figure 4.1**, walking and cycling provide viable modes of travel to these stations.

4.16 Trains from Warblington run to Chichester and Littlehampton to the east and to Havant and onto Portsmouth & Southsea in the west. Services run in both directions at a frequency of two services per hour at peak times and at a frequency of one service per hour during off peak periods.

4.17 Services from Havant include those stopping at Warblington described above with additional services to Southampton London Waterloo, Portsmouth and also direct trains to Brighton. The journey by rail between the two stations is approximately 2 to 3 minutes.

4.18 Services to London Waterloo run at a frequency of four per hour during peak periods and at two per hour during off peak periods.

4.19 Pocket timetables for the AM and PM peak hours for the main services for both stations are provided at **Appendix E**.

Local Facilities

4.20 Planning guidance emphasises the integration of land use, transport and planning decisions. To ensure developments are sustainable, they should be accessible to local facilities, employment opportunities and public transport services.

4.21 Section 4.4 of Manual for Streets (MfS) describes "The walkable neighbourhood" as typically characterised by having a range of facilities within 10 minutes (about 800m). Furthermore, MfS also states that this is not an upper limit and also refers to the potential for walk trips up to 2km. (1.24Miles)

4.22 DfT Local Transport Note 1/04 – Policy, Planning and Design for walking and Cycling *para* 3.10.3 states "*the average length for walking journeys is approximately 1km (0.6 miles) and for cycling, it is 4km (2.4 miles), although journeys of up to three times these distances are not uncommon for regular commuters*".

4.23 As such, there are a number of facilities and amenities within reasonable walking and cycling distances as described above or within reach by public transport. The location of these relative to the site are illustrated on **Figure 4.1**, along with 800m and 2000m isochrones

4.24 The following sections provide tables of various amenities which are categorised into retail, education, healthcare, business park and recreation, giving approximate distances to these measured from the proposed site access on Bartons Road.

Retail

4.25 **Table 4.1** below lists local convenience stores and retails in the area, approximate distance and walking/cycling times relative to the site.

Table 4.1: List of Retail Establishments

Facility	Approx. dist(km)	Meet 2km target walk?	Approx. walk time (mins)	Meet 5km target cycle?	Approx. cycle time (mins)
Havant Garden Centre	0.5	✓	6	✓	2
The Co-Operative Food	1.4	✓	17	✓	5
Welcome Denvilles	1.4	✓	17	✓	5
Londis	1.5	✓	19	✓	6
Leigh Park Shopping Centre	2.0	✓	24	✓	7
The Meridian Centre	2.9		35	✓	9
Wickes & ALDI	3.0		36	✓	10
Solent Retail Park	3.6		42	✓	12

Education

4.26 The Department for education Home to School Travel and Transport Guidance, published in July 2014 sets out the statutory guidance for local authorities for the provision of free school transport for ages 5-16.

4.27 The guidance also defines eligible children as – those categories of children of compulsory school age (5-16) in an authority's area for whom free travel arrangements will be required. Local authorities are required to: provide free transport for all pupils of compulsory school age (5-16) if their nearest suitable school is:

- beyond 2 miles **(3.2km)** (if below the age of 8); or
- beyond 3 miles **(4.8km)** (if aged between 8 and 16

4.28 The inference of this is that 2miles **(3.2km)** for under 8-year olds and 3 miles **(4.8km)** for 8 years plus is an acceptable walking or cycling distance for pupils removing the need for free travel to school.

4.29 A range of schools are available within close proximity of the site. Their distances to these schools from the site are provided in **Table 4.2** below.

Table 4.2: List of Education Institutions

Facility	Approx. dist(km)	Meet 2km target walk?	Approx. walk time (mins)	Meet 5km target cycle?	Approx. cycle time (mins)
Sharps Copse Primary School	1.4	✓	17	✓	5
Saint Alban's CoE Primary School	1.6	✓	18	✓	5
Fairfield Infant School	2.5		30	✓	7
Warblington School	2.7		33	✓	9
Trosnant Junior School	2.8		34	✓	9
Havant & South Downs College – Havant Campus	3.0		37	✓	10

It is noted that all of the above schools are within 2 miles 3.2km or 3 miles (4.8km) as such they would not result in a requirement for free travel as per Department for Education requirements.

Healthcare

4.30 A range of Health facilities are available close to the site. Their distances from the site are provided in **Table 4.3** below.

Table 4.3: List of Healthcare Centres

Facility	Approx. dist(km)	Meet 2km target walk?	Approx. walk time (mins)	Meet 5km target cycle?	Approx. cycle time (mins)
Spire Portsmouth Hospital (Private Hospital)	0.23	✓	3	✓	1
Oak Park Community Clinic	2.2		26	✓	6
Havant Health Centre	2.6		30	✓	8

Business Park

4.31 A number of business parks and places of employment are available within 2km walking and 5km cycling distances. **Table 4.4** below lists

various employment centres and their respective distances measured from the proposed site access.

Table 4.4: List of Business Parks

Facility	Approx. dist(km)	Meet 2km target walk?	Approx. walk time (mins)	Meet 5km target cycle?	Approx. cycle time (mins)
Nest Business Park	1.2	✓	14	✓	4
Kenwood Business Park	2.0	✓	23	✓	6
Langstone Technology Park	4.0		48	✓	12
Endeavour Business Park	4.3		52	✓	14
New Lane	0.6 – 1.9	✓	22	✓	6
Downley Road	0.8-1.2	✓	14	✓	4

Recreation and Leisure

4.32 A number of recreation and leisure centres are available with walking and cycling distances as provided in **Table 4.5** below.

Table 4.5: List of Recreation and Leisure Centres

Facility	Approx. dist(km)	Meet 2km target walk?	Approx. walk time (mins)	Meet 5km target cycle?	Approx. cycle time (mins)
Bartons Green	1.1	✓	13	✓	4
My Fitness Hub Havant	1.6	✓	19	✓	5
Leigh Park Community Centre	2.4		28	✓	8
Horizon Gym	2.6		31	✓	8

4.33 In summary, as described in detail above, it is considered that the site is within range of a wide variety of facilities within both walking distance of 2km and cycling distance of 5km, it is therefore conveniently located to encourage sustainable and active forms of travel; as well as providing access to public transport for longer journeys.

Local Highway Network

4.34 The local highway network is shown in **Figure 1.1**. Bartons Road is approximately a 7.5-8m wide distributor road that runs west to east connecting to Petersfield Road to the west, in the form of a signalised junction and Comely Hill / Emsworth Road to the east leading to the centre of Emsworth.

4.35 To the west, Bartons Road is subject to 30mph speed limit as indicated by the signposts. Half way through Bartons Road, just before the rail line, the speed limit of the road changes to 40mph.

4.36 Bartons Road forms a signalised junction with Petersfield Road to the west, which is a link road running from the north into the centre of Havant and linking to the A27 further south. The A27 runs parallel, south of Bartons Road and is a major strategic route along the south coast linking the site to Portsmouth and the M27 leading to Southampton to the west, with Chichester and Brighton to the south.

4.37 From Petersfield Road, drivers can gain access to the A3 heading north towards Petersfield, Guildford and London via Stockheath Road and Purbrook Way.

4.38 To the east Bartons Road forms a ghost island priority junction with Eastleigh Road, which runs south connecting to Southleigh Road providing access to Warblington Railway station south of the site.

4.39 Further east of the junction with Eastleigh Road, Bartons Road forms a staggered priority crossroads with Comely Hill (B2148) running north, Emsworth Common Road to the east and Horndean Road (B2148) heading south.

4.40 B2148 provides access to A3(M) to the north passing Rowlands Castle as well as Westbourne and Emsworth to the south east. Emsworth Common Road leads east towards Chichester via the rural settlements of Aldsworth, Funtington and East Ashling.

Existing Mode Share

4.41 The existing mode share for the local area has been determined with reference to the 2011 Journey to Work Census data for the Havant district area. The percentage mode share is set out in **Table 4.6**. This shows that 71% travel to work as a driver and 6% as a passenger, resulting in a single occupancy trip to be 65% of the total.

Table 4.6: Mode Share Percentage

Mode	**Existing Havant Mode Share (%)**
Train	3%
Bus, minibus or coach	5%
Taxi	1%
Motorcycle, scooter or moped	1%
Driving a car or van	71%
Passenger in a car or van	6%
Bicycle	4%
On Foot	9%
Total	**100%**

4.42 Although the northern aspect of the site (potential second application site) sits in EHDC, given the location of the site, it is anticipated that Havant's mode share would be applicable for this as well.

5.0 DEVELOPMENT PROPOSALS

5.1 This TP has been prepared in support of an outline planning application for a proposed residential development of up to 72 dwellings (1, 2, 3 and 4 bedroom) with all matters reserved except access. The final proposals will comprise a mixture of affordable rented, shared ownership and privately-owned houses.

5.2 An illustrative masterplan of the proposed development is provided by Stainsby Architect and is included in **Appendix F**.

5.3 As discussed in the main TA and above, there is a likelihood of further development to 78 additional dwellings to the northern sector of the site which is located within the planning area for EHDC. Although only a proposal at this stage, if this does come forward in the future, then it would make use of the proposed site access onto Bartons Road and the internal layout would likely be designed using the similar principles as that proposed for this current application, whilst also considering EHDC's requirements.

Site Access Design

5.4 The proposed access arrangement is illustrated in **Drawing No 17-055-011**. It includes revision of the existing crematorium access, upgrading this to provide a 6.75m carriageway with 10m Radii. 2m wide footway is proposed along the western edge of the site access road and a crossing facility with dropped kerb and tactile paving leading to the existing footway to the south of Bartons Road.

5.5 Shared pedestrian/cyclist and emergency access is also proposed to the south west corner of the site as illustrated within **Drawing No 17-055-011**. There would be a provision of padlocked staggered gates to prevent any unauthorised use of the emergency access. However, this would not prevent pedestrian and cyclist access including wheelchair users.

5.6 3m wide footway/cycleway is proposed from the above shared access to the west along the northern edge of Bartons Road leading to the existing footway facilities in front of Linden Homes development.

Parking Provision

5.7 Car and cycle parking on the site will been provided to meet the standards set out in HBC's Parking Supplementary Planning Document (SPD) dated 27th July 2016. The details of the parking will be agreed at the detailed design stage of the planning process and will accord with the design principles set out in the HCC's Companion Guide for Manual for Streets.

5.8 Car parking requirement as per the HBC's SPD for C3 Dwelling Houses use is summarised in **Table 5.1** below. Furthermore, additional 20% of the total parking spaces have to be provided for the visitors.

Table 5.1: HBC's SPD Car Parking Requirements

Size of dwelling	Minimum Car Parking Requirement	
	Allocated	Unallocated
1 Bed Unit	1 space	0.9 spaces
2 Bed Unit	2 spaces	1.3 spaces
3 Bed Unit	2 spaces	1.9 spaces
4+ Bed Unit	3 spaces	2.4 spaces

5.9 Cycle parking/storage provision requirement as per HBC's SPD to be implemented within the development is summarised in **Table 5.2** below.

Table 5.2: HBC's SPD Cycle Parking Requirements

Size of Dwelling	No. of Cycle Parking/Storage Provision
1 Bed Unit	1 space per unit
2 Bed Unit	2 spaces per unit
3 Bed Unit	2 spaces per unit
4+ Bed Unit	2 spaces per unit

6.0 TARGETS

6.1 Targets are a means to measure the achievement and effectiveness of the TP against the objectives set. These targets set need to be 'SMART' i.e. they must be:

- **Site-specific**: well defined and clear to those with basic knowledge of transport;
- **Measurable**: concrete criteria for measuring progress;
- **Achievable**: challenging and ability stretching, but still reasonable;
- **Realistic**: within the availability of resources, time and knowledge;
- **Time-related**: grounded within a timeframe.

6.2 In addition, Hampshire's guidance suggests that there should be a mix of "action" and "aim" targets which are set out as follows and relate to each year of the funded TP:

- Reduce the number of single occupancy car journeys ("aim");
- Increase the total journeys per year by bus ("aim");
- Increase walk and cycle journeys ("aim");
- Ensure awareness of the TP and its initiatives ("aim")
- A Travel Plan Coordinator to be appointed prior to first occupation of the site ("action")
- Annual monitoring survey ("action")

6.3 Definitive targets for a new development site should be set once baseline residential travel surveys have been carried out. At this stage and without the baseline residential travel surveys, it is not possible to set definitive targets to establish the exact mode share for the development. This TP therefore sets out possible mode share targets on the existing mode data available for Havant Borough as a whole. Although the northern sector of the site sits in EHDC, given the location of the site and the site access leading on Bartons Road, it is anticipated that Havant's mode share would be suitable for this as well.

6.4 The existing mode share for Havant Borough based on the existing Census 2011 Journey to Work data is tabulated in **Table 4.6**.

6.5 Census 2011 Journey to Work data provides a suitable estimate for the likely travel patterns from the site. Based on this, a possible target mode shift of 5% away from the use of the car, in particular single occupancy car use would be appropriate over a 5-year period. The possible development target mode share in comparison to the existing mode share is provided in **Table 6.1** below.

Table 6.1: Possible Development Target Mode Share

Mode	Existing Havant Mode Share (%)	Possible Development Target Mode Share (%)
Train	3%	4%
Bus, minibus or coach	5%	6%
Taxi	1%	1%
Motorcycle, scooter or moped	1%	1%
Driving a car or van	71%	66%
Passenger in a car or van	6%	7%
Bicycle	4%	5%
On Foot	9%	10%
Total	**100%**	**100%**

6.6 These targets will be confirmed and agreed with HCC after completion of the first site specific travel survey.

6.7 When considering the number of trips which equates to, a summary of the expected two-way trips generated by the proposed development (72 dwellings) by mode based on the existing Havant Mode share and possible development target is set out in **Table 6.2**. This is based on the modal split set out in **Table 6.1** and the daily two-way vehicle trip generation based on TRICS (refer to the TA Table 5.1 for trip rates).

Table 6.2: Expected Daily Two-Way Development Trips (72 dwellings)

Mode	Based on Existing Havant Borough mode share	Based on Potential Development Target mode share
Train	16	21
Bus, minibus or coach	27	32
Taxi	3	3
Motorcycle, scooter or moped	6	6
Driving a car or van	357	332
Passenger in a car or van	32	37
Bicycle	18	23
On Foot	43	48
Total	**502**	**502**

Note: Two-way trips are the arrival and departure trips combined. The above data therefore represents all trips to and from the site.

6.8 **Table 6.3** below provides a summary of the expected two-way trips generated by the combined proposed development and potential development within EHDC (up to 150 dwellings) if it was to come forward.

Table 6.3: Expected Daily Two-Way Development Trips (150 dwellings)

Mode	Based on Existing Havant Borough mode share	Based on Potential Development Target mode share
Train	34	44
Bus, minibus or coach	56	67
Taxi	7	7
Motorcycle, scooter or moped	14	14
Driving a car or van	744	692
Passenger in a car or van	67	77
Bicycle	37	47
On Foot	90	101
Total	**1049**	**1049**

Policy Context

6.9 The targets included in this TP (as set out above) are consistent with the HBC's and EHDC's Local Development Frameworks (LDF) and HCC's Local Transport Plan (LTP) objectives.

6.10 The emphasis of the LTP over the next 5-10 years is focussing on three main priorities to maximise the efficiency of the existing network to support the economy, maintenance and management.

6.11 It will be important to provide up to date information on sustainable modes to residents – particularly promoting new transport technologies or improved co-ordination between modes in line with Policy Objectives 3 and 8; highlighting improvements to rail access (Policy Objective 6); and ensuring that new sustainable infrastructure or other measures invested in by HCC are publicised to the residents (Policy Objectives 12 and 13).

6.12 Reducing single occupancy car use and the need to travel will contribute towards improving air quality and national carbon targets (Policy Objective 10); and specifically relates to Policy Objective 11.

7.0 MEASURES

7.1 There will be a range of measures and actions which will be central to the delivery of the TP and meeting the targets set. The measures implemented will range from hard, physical measures which form part of the development to soft measures which can be altered to suit the needs of the residents.

7.2 These measures will be implemented throughout all stages of the development process, from the design and construction, marketing and occupation of the development in order to promote and support the use of sustainable travel modes including walking, cycling, public transport use and car sharing.

7.3 The range of measures are set out below. Although, at this stage, the development proposals only include southern aspect of the site for 72 dwellings, these measures would also be applicable if the further development were to come forward in the northern sector of the site.

Hard physical Measures

7.4 Hard measures represent elements of the scheme that are designed in from the outset, such as the provision of pedestrian and cycle routes and facilities (e.g. crossings, cycle storage, street lighting, etc). While these have scope to encourage modal shift, the primary role of such hard measures is to facilitate this by making facilities available to support the use of sustainable modes.

7.5 As set out in **Section 4**, the proposed site access will have provision of 2m footway and appropriate pedestrian crossing facility with tactile paving and dropped kerbs which would lead to the existing footway on the southern side of Bartons Road and wider footway network.

7.6 The internal site layout will be designed with a target maximum speed of 20mph. This, in conjunction with the use of shared surfaces and pedestrian footways, together with built-in traffic calming, will reduce the

dominance of the private car and support and encourage the use of other more sustainable modes of travel.

7.7 Additionally, the proposals also include provision of shared pedestrian and cyclist access point and 3m footway/cycle towards the south western corner of the site.

7.8 The design of the development will encompass the key principles of good practice in highway design that have an implication on transport sustainability. The internal layout of the site will be designed to maximise the permeability of the site by foot making use of the two proposed access points onto Bartons Road as described above.

7.9 An appropriate level of car/cycle parking for the development will be provided in accordance to HBC's requirements.

7.10 Consideration will be given to ensure delivery vehicles can manoeuvre within the site so as to reduce the need to travel by allowing for internet shopping for residents.

Key Features

7.11 A summary of the key features which will be incorporated in the design of the development and which encourage sustainable transport is provided below:

- A general highway layout that constrains vehicle speeds;
- Use of shared surface areas on appropriate roads resulting in pedestrian/cycle dominated carriageways;
- Sufficient pedestrian footways and lightings on the respective on-site streets;
- Provision of cycle storage for each dwelling;
- A high degree of pedestrian/ cycle permeability;
- Consideration for deliveries to encourage internet shopping;

- Provision of broadband internet connection to enable residents the ability to work from home and also make internet shopping easier.

Soft / Informative Measures

7.12 Soft measures are those that are implemented during the life of the TP which do not represent physical measures, such as those set out above. They include initiatives and campaigns to promote a shift in mode away from the private car to other, more sustainable modes.

7.13 The package of proposed measures will comprise the following:

- Appointment of a 'Travel Plan Coordinator' (TPC);
- Promotion of walking and cycling for leisure and commuting including routes suitable for disabled persons;
- Promotion of public transport services including details of facilities available for mobility impaired;
- Promotion of available taxi share services;
- Provision of Personal Travel Planning (PTP);
- Provision of bus vouchers;
- Liaison with local cycle retailers to obtain discounts for residents;
- Provision of a travel plan website;
- Promotion of car sharing;
- Promotion of walk / cycle to school and 'walking bus'; and
- Provision of information for inclusion in homeowners' packs.

Travel Plan Coordinator (TPC)

7.14 Prior to the occupation of the site, the developers will appoint a designated Travel Plan Co-ordinator (TPC) who will take responsibility for delivery of the above measures to cover the full 5-year period of the TP. The roles of TPC are discussed in more detail in following **Section 8**. After 5 years, it is likely that any continuation of the TP will be completed by a residents group or a management company.

7.15 The TPC role will change and adapt over the course of the TP period and will therefore be reviewed regularly throughout the period of the plan. The full contacts details of the TPC will be provided to HCC once the role has been appointed. Given the scale of the development, it is anticipated that the TPC role will be part time.

Publicity and Promotion

7.16 Fundamental to delivering any modal shift away from the private car is the provision of relevant and up-to-date sustainable travel information.

7.17 This will form the basis of the type of information that will be provided to residents in order to facilitate alternative travel opportunities. These measures support the overall aim and objectives set out in **Section 3**. Sustainable transport information provided to residents (including bus maps, timetabling information and walk and cycle route maps) can be presented to the target audience in a number of ways as discussed below:

i) Travel Plan Welcome Packs

7.18 It is now common for residents moving in to new-build housing to receive an *Information Pack* or *Welcome Pack* from the house-builder, comprising general information on the property. This would be used as a mechanism to deliver a range of travel information to the new residents, both to inform the travel opportunities and to encourage modal shift.

7.19 The TPC will ensure that the information for the welcome packs are prepared sufficiently in advance of occupation at the site, to ensure that residents receive such packs upon occupation.

7.20 A fundamental element of the information supplied will be the inclusion of bus maps/ timetables and maps of key destinations within walking and cycle distance of the site.

7.21 In addition to the above, the following information can also be included in the welcome packs issued to all dwellings at the site:

- Information relating to the benefits of using sustainable modes of transport – in particular active modes to promote the objective of improving the health and wellbeing of residents;
- Contact details of the TPC;
- Details on internet grocery shopping available in the area;
- List of useful transport related resources such as:
    - Rail Travel Information: www.nationalrail.co.uk
    - Bus Travel Information: www.travelinesoutheast.org.uk;
    - General Travel Information: www.traveline.org.uk
    - Car Share: www.liftshare.com/uk/community/hants
    - Details of taxi firms and ranks available at train stations

7.22 There is also potential to offer further incentives to sustainable travel within the welcome packs, with inclusions of vouchers for bus travel, or discounts at local cycle retailers.

ii) ***Personalised Travel Planning Service***

7.23 The TPC will act as a contact point for those looking to gain a more detailed understanding of travel opportunities. In delivering this service, the TPC would ensure that all are aware of the sustainable travel options to and from the site. Individual residents will be able to request assistance from the TPC in planning journeys such that the most efficient and sustainable option can be selected.

iii) Promotional Events

7.24 If considered necessary, annual events will be promoted over the period of the TP – these are likely to include competition “give away”, fliers to highlight national events such as “Bike Week” or “Walk to School Week” or local events in Hampshire focussed on active travel, or providing ad hoc information on walking routes in the area or health benefits of exercise.

iv) ***Website***

7.25 A website is a straightforward way in which residents can access the most up to date travel information. A website link will be established which provides links to:

- Car Share database
- National Rail Time Tables
- Bus Timetables
- Taxi providers
- Information on cycle routes and cycling organisations
- Information on walking routes and local rambler groups

7.26 The above measures should allow the future residents of the proposed development to have sufficient knowledge of the sustainable modes of travel and facilities available to them and make informed decisions about their travel choices.

8.0 TRAVEL PLAN STRATEGY AND ACTION PLAN

Travel Plan Coordinator (TPC)

8.1 The TPC will be responsible in terms of ensuring that the TP is implemented and a series of measures and initiatives are delivered.

8.2 A critical part of the information gathering for the TPC will be to carry out a questionnaire survey of all occupiers to provide details of individual circumstances, travel patterns and preferences etc. The surveys can either be carried out online or in paper format. The survey will be organised by the TPC and the results set out in a monitoring report.

8.3 Prior to first occupation, the TPC will update and/or acquire all the supporting information needed, such as public transport timetables and cycle maps and review the overall contents of the TP document to ensure its accuracy and relevance.

8.4 The duties of the TPC will include but not limited to:

- Discussions with the sales staff to provide informal training and travel information relating to the site to promote the TP;
- Overseeing the gathering of information, e.g. the travel questionnaire;
- Providing new residents with travel information in the welcome pack to include details of sustainable travel options available to them including bus timetables, and any promotions such as introductory bus passes or other introductory incentives.
- Information to new residents to explain the objectives and benefits of the TP to ensure awareness of the plan and to encourage participation;
- Acting as a focal point for all transport, access and travel related issues in relation to the site;
- Actively encouraging and promoting walking, cycling and public transport use to travel to and from the development, where possible. Hence, residents will be encouraged to be fully aware of different travel options which are available from the site;

- Obtaining up to date details of the information required in the TP;
- Implementing, monitoring and reviewing the TP; and
- Provision of a report to the Council summarising the monitoring, targets and review of the TP and discussing the measures (as needed).

8.5 Where appropriate the TPC will look to develop partnerships with local shops / businesses to obtain discounts for residents, such as local cycle shops.

Action Plan

8.6 A series of 'hard' and 'soft' measures will be implemented as discussed in **Section 7.0**. These will ensure that there is opportunity and incentive to travel by sustainable methods of travel.

8.7 An indicative action plan has been provided below in **Table 8.1** which sets out the intended measures, actions and responsibilities. Consultation on the contents of the action plan will be completed and agreed with HCC after the completion of the initial travel survey.

Table 8.1: Action Plan

Action /Target	Measure	Task	Responsibility	Review
Implement Travel Plan	TPC	Appoint TPC prior to first occupation	Developer	-
	Welcome Pack	Produce information for inclusion in welcome pack and organise distribution upon first occupation	TPC	Update as needed
	Monitoring	Complete initial travel survey after 6 months of first occupation/annually afterwards	TPC	-
	Targets	Agree final targets with HCC following initial survey	TPC	-
	Promotion of sustainable travel	Organise for website to be set	Developer / TPC	Check information on website

		up prior to first occupation		is up to date - quarterly
	Monitoring	Monitor and report on TP after travel survey	TPC	Annually
To reduce the proportion of single occupancy car trips	All of the measures below plus:			
	Promotion of car sharing	Produce information for inclusion in welcome pack	TPC	Check information is up to date - quarterly
To increase bus mode share	Provision of bus timetable/stop information	Produce information for inclusion in welcome pack	TPC	Check information is up to date - quarterly
	Bus taster	Offer a free weekly bus ticket per household on occupation – scheme available for up to 3 months post full occupation	TPC	-
Increase Cycle mode share	Provision of cycle storage spaces	Provide adequate level of secure cycle storage spaces upon occupation	Developer	-
	Cycle route information and cycle discount vouchers	Provide cycle route information in welcome pack, and if discounts have been negotiated then these should be included in the pack	TPC	-
Increase walk mode share	Improve pedestrian links	Ensure links with existing wider footway network and PROWs – determined as part of planning submission	Developer	-
	Provision of local pedestrian network Plan	Provide residents with information in welcome pack	TPC	Annually
Personalised Travel Planning		Offer PTP to each household on first occupation through welcome pack promotion – scheme available up to 3 months post full occupation	TPC	As required

9.0 MONITORING

9.1 A successful TP must have an appropriate monitoring programme that measures success (and failure) and reinvigorates the process where necessary. The development of an appropriate monitoring and review strategy will be the responsibility of the TPC.

9.2 Monitoring will be conducted using a questionnaire-based approach combined with automatic traffic counts at the site access.

9.3 Resident travel surveys will be carried out on an annual basis (year on year from the month of the baseline surveys being carried out) for a five-year period. An annual monitoring / review report will be prepared and submitted to HCC Highways as well as being made publicly available to residents if needed. Where this review reveals that targets are not being attained the TPC will consider additional measures which may be implemented to enhance the effectiveness of the TP.

9.4 The survey should include the following elements:

- How residents plan to or currently travel to work and other destinations.
- How residents prefer to travel for various journey purposes.
- Measures that would encourage residents to use sustainable modes.
- Work, school and main shopping destination(s) (typically by postcode area).
- Other travel needs.

9.5 The initial monitoring survey to establish the baseline for comparison will be completed 6 months from first occupation, and then surveys for comparison will be undertaken annually for a 5-year period. A sample travel survey questionnaire is attached as **Appendix G**. This is to be revised by the TPC in accordance with HCC requirements.

9.6 As set out in HCC guidance a 35% response rate will be aimed for from the monitoring surveys. There is a potential for responses to be encouraged through a prize incentive of £50 worth of voucher for retail.

9.7 A monitoring report will be provided following the travel survey, summarising the results and the effectiveness of the measures implemented in meeting the aims and targets set out in the TP. This report will be provided to both residents and HCC. An annual review will also be completed to determine if the measures and promotion of the TP need to be updated in order to achieve the targets.

9.8 In the event that targets are not met, a number of sanctions will be implemented by the TPC as follows:

- marketing events will be undertaken to encourage sustainable travel;
- encourage uptake in the bus pass incentive scheme and advertise the cycle discounts and personal travel planning by direct marketing through emails and via marketing events.

9.9 The above methodology has been primarily prepared for the current application for 72 dwellings in southern sector of the site. However, if a further application were to come forward, subject to when it comes forward, the above schedule would be adjusted to suit the combined development upon consultation with HCC.

10.0 BUDGET

10.1 In order to meet HCC requirements, an estimated budget has been produced based on experience at other sites. This is provided in **Table 10.1** and summarises the amount set aside by to implement the TP. This will be formally reviewed on completion of the initial travel surveys on the site and when measures and the marketing / promotion have been agreed with HCC.

Table 10.1: Budget

Measure / Item	**Cost over 5 years**
Travel Plan Co-ordinator	£55,000
Monitoring (1 No. ATC for initial survey + every year over 5 years) *	£2,400
Prize incentive to encourage residents to complete questionnaire for monitoring	£300
Welcome Pack	£3,000
Travel Plan Website	£3,000
Events	£2,500
PTP	£3,000
Cycle Discount Voucher**	£1,800
Bus Taster Ticket**	£1,800
Total	**£72,800**

* assumes £50 for each questionnaire (initial, then every year over 5 years)

** assumes £50 voucher with 50% uptake from households

10.2 A commitment to provide HCC with its TP review costs is also provided. It is understood that HCC require £750 for the initial evaluation fee and £1,000 per annum for monitoring, a total of £5,750 for a 5-year TP.

10.3 If the further development as described before were to come forward in northern sector of the, then there would be need to revise the above estimated budget accordingly.

11.0 SUMMARY

11.1 This TP has been prepared by Charles & Associates Consulting Engineers Ltd (C&A), on behalf of White Farming Limited, to support the proposed residential development of Land West of Havant Crematorium, Bartons Road within HBC in Hampshire. The proposed development will contain up to 72 dwellings.

11.2 There may in the future be scope for further development of up to 78 additional dwellings within the northern sector of the site which is located within EHDC. As such, consideration has been given to this as necessary.

11.3 This TP sets out site specific initiatives aimed at improving the availability and choice of travel modes to and from the development. Together with the TA, this TP will aim to be the mechanism by which overall travel demand will be managed and monitored.

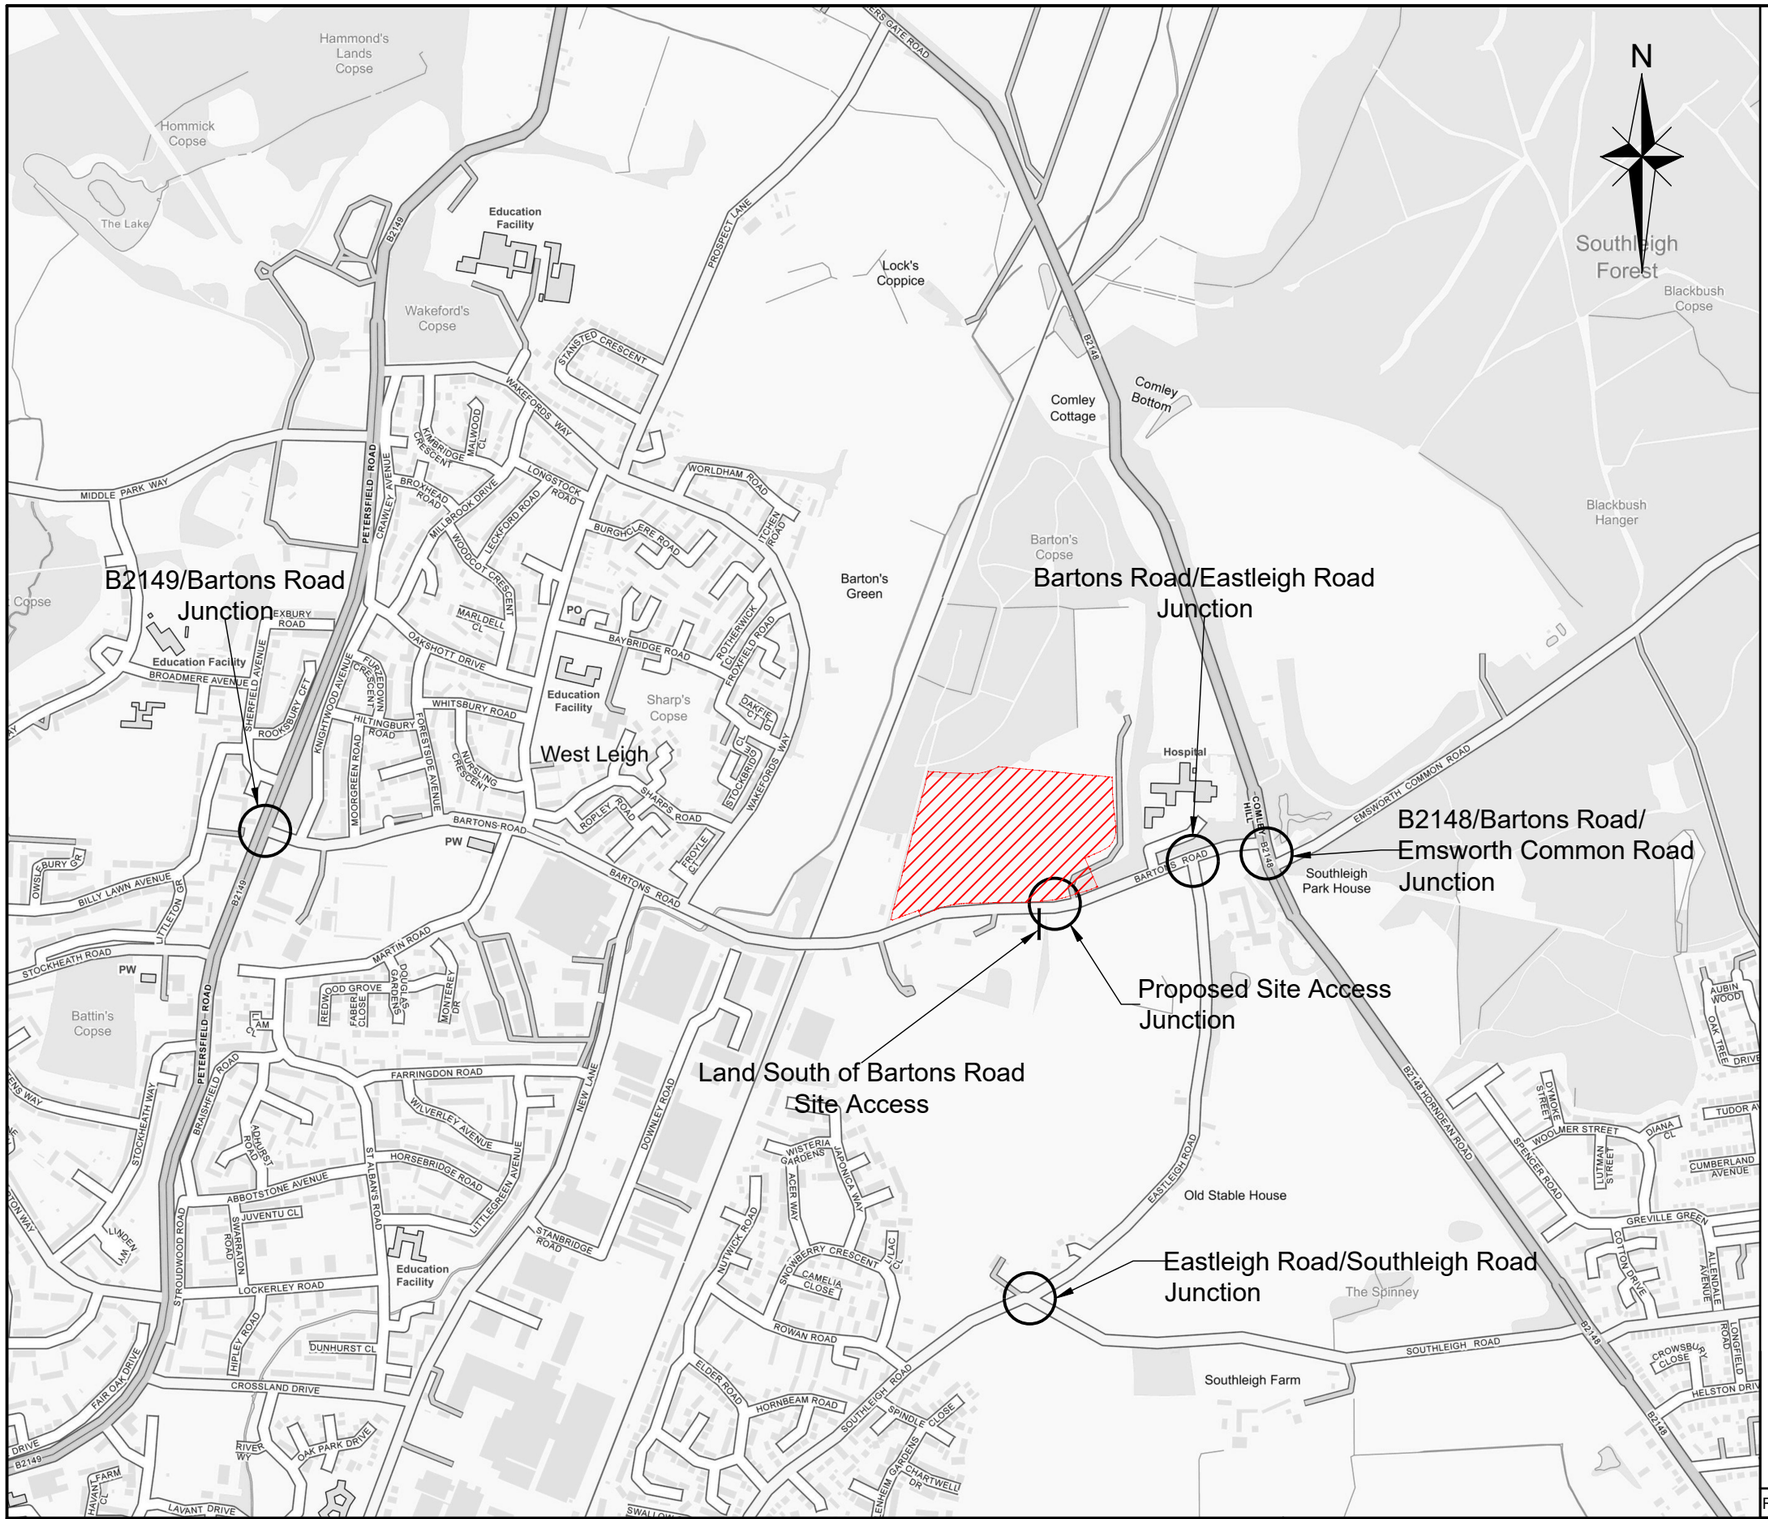

11.4 It has been produced in accordance with HCC's Travel Plan Guidance 'A Guide to Development Related Travel Plans'.

11.5 The aims and objectives, policy context and site audit of the existing travel conditions around the site are provided within this TP. The audit concludes that the site is located within reasonable travel distance by foot and cycle to local facilities, services and public transport. The proposals will include good quality footways/cycleways within the site and provide connections to existing pedestrian infrastructure and will include dedicated links for pedestrians and cycle user onto Bartons Road from the site.

11.6 The hard/physical and soft/informative measures that are to be implemented have been discussed, alongside details of the role of the TPC, targets set, monitoring and budget.

11.7 All of this information will be agreed with HCC, as Highway Authority, as part of the implementation of the TP and updated through the monitoring process.

Background			**9**	**9**
Name of residential development (developer/agent/speculative development status)	Section 1	T	1	1
Numbers and types of dwellings	Section 5	T	1	1
Are there other on site facilities? Customer/visitor movements	Residential only	T	1	1
Is the scope of the plan clear and does the plan relate to the different needs of all residents, visitors, deliveries, disabled access?	Section 1	T,R,A	2	2
Is there reference to the wider company ethos (if managed housing)	N/A	T,R	1	1
Physical description of the site and its location. To include on site infrastructure (e.g. car parking spaces) and off site infrastructure (e.g. public transport services)	Section 4	T	2	2
Is the plan clear about who has responsibility to deliver the travel plan (the developer or responsibility passed to the residents groups)	Section 8	T,R,C	1	1
Consultation and partnerships			**5**	**7**

Does the plan demonstrate that residents will be involved in the development of the plan. Have the opinions of the local community and stakeholders been included in the action plan.	Section 8 and 9	T,R	2	2
Is there agreement with the highway / transport authority on the measures relevant to them. Evidence of liaison with the local authority.	N/A – not at this stage. To be included in subsequent revisons as TP developed.	T,R,A	1	2
Is there agreement with the local public transport operators on measures relevant to them	N/A – not at this stage. To be included in subsequent revisons as TP developed.	T,R,A	1	2
Are any other key partnerships identified (e.g. cycle retailers, train operators) or is there membership of a commuter /local residents forum	Section 7 and 8	T,C,A	1	1
Site and travel surveys			**10**	**10**
Have site audits been undertaken	Section 4	T,C	1	1
Have surveys been carried out of existing transport links and public parking stock (i.e. is there potential for displaced parking to take place)	N/A for the site	T,C	1	1
Have travel surveys been planned. If so, what response rate / data quality is anticipated?	Section 9. 35%	T,C	2	2

Has an appropriate survey methodology been proposed and agreed including timescales	Section 9	T,A,C	1	1
Is a sample survey questionnaire provided	Appendix to TP	T,A,C	1	1
What level of data analysis has been used to inform the development of the action plan (reference to local or national data)	Site specific analysis from the TA	T,C	2	2
Are likely patterns of resident /visitor travel outlined?	Table 6.1 and 6.2	T	2	2
Visions, Objectives and Targets			**9**	**10**
Does the plan have clear and appropriate overall aims and objectives.	Section 3	T,R,A,C	1	1
does the plan have targets (related to the aims and objectives). Minimum of % SOV versus other modes	Section 6. Table 6.1		2	2
Are there 'aim' and 'action' type targets	Yes. Section 6	T,R,A,C	1	1
Is the plan clear about how the targets have been developed (e.g. are they based on evidence from similar sites)	Section 6	T,R,A	1	2
Are the targets SMART	Yes	T,R,A	1	1
Are indicators of success proposed	Table 6.1	T,R,A	1	1
Are the targets consistent with LDF and LTP objectives and policies	Yes, Section 6	T,R	2	2

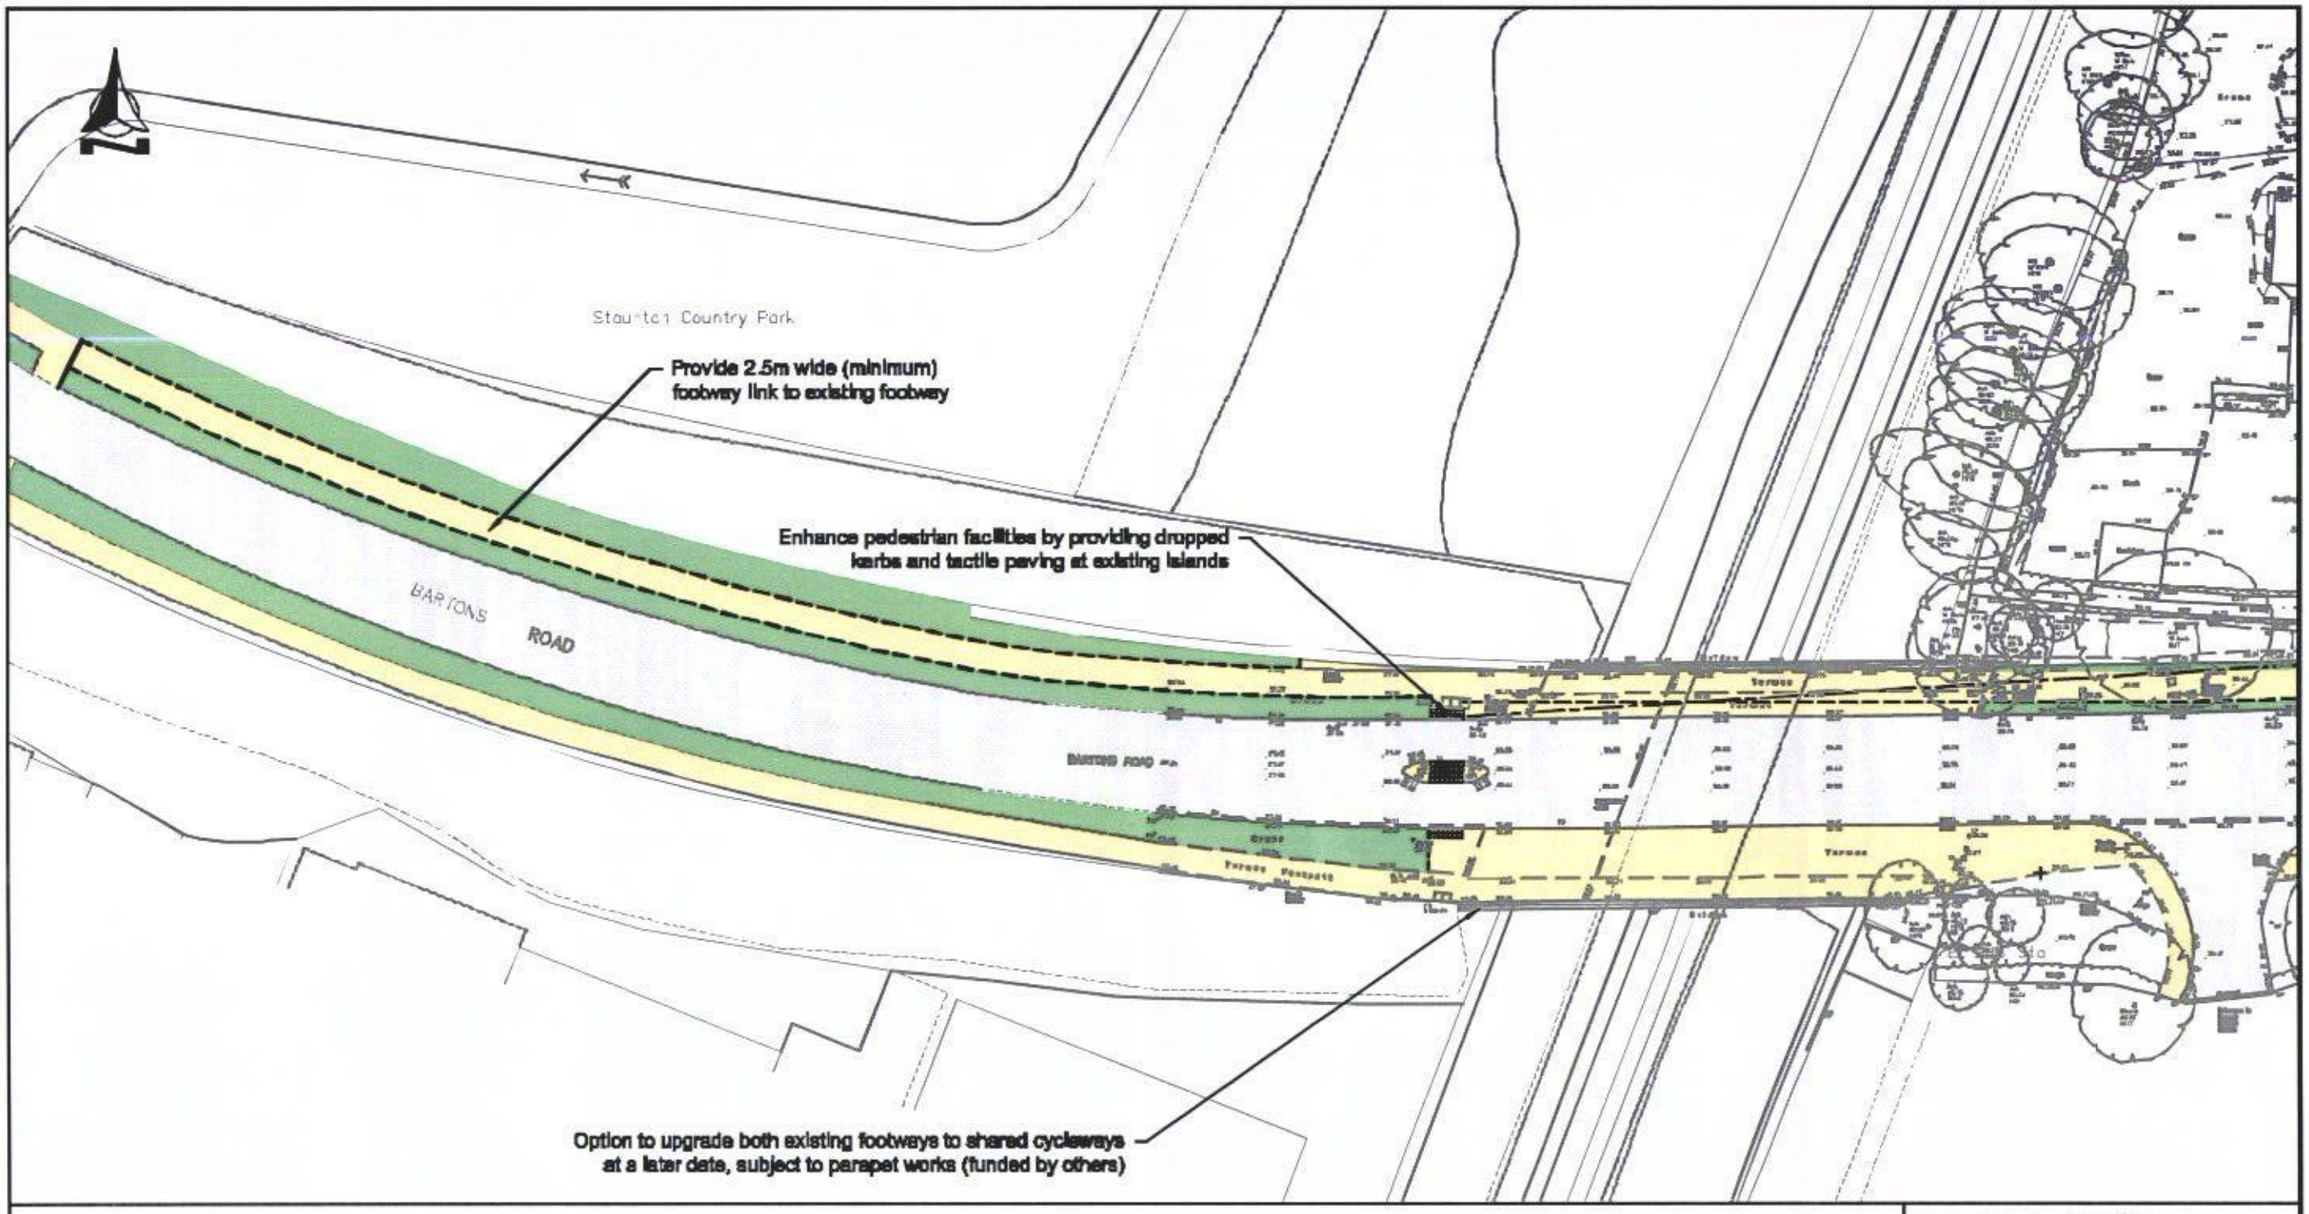

Action Plan			**25**	**34**
has an action plan been included?	Section 8, Table 8.1	T	1	1
Is it clear how initiatives and measures support the overall aims and objectives	Section 7	T,R	3	3
Are measures related to survey results or in line with over all aims and objectives	Yes	T,R	3	3
Do actions have defined and realistic timescales	Section 8, Table 8.1	T,R,A	3	4
Are a range of appropriate measures included in the site design	Section 5		2	3
Are initiatives and measures prioritised in the plan	Yes	R,A	2	3
Are there details of who is responsible for each action	Table 8.1 (TPC/Developer)	T,R,A	2	2
Are all modes of travel to and from the site considered (walking, cycling, bus, train, taxi, motorbike, multimodal journeys, car, car share, deliveries)	Yes	T,C	2	4
Are measures (physical and promotional) identified to assist all users of the site and all journey types	Section 7	T,C	2	3
provision of marketing / information for each mode	Section 7		1	2
provision of incentives for each mode	Section 7		2	2

Is there a strong car parking policy (e.g. to what extent is resident and visitor car parking managed)	N/A – no car parking management. Appropriate car parking provision provided as per HBC requirement, so no overspill anticipated	R,A,C	1	2
Are non transport solutions considered (e.g. are homes wired for broadband internet, are there opportunities to provide work hubs)	Section 7	R,A,C	1	2
Evaluation and Monitoring			**5**	**7**
Does the plan state when surveys will be undertaken	Section 9. Within 6 months of occupation. Every year afterwards	T,S	1	1
Are there mechanisms in place for reviewing and updating the plan in light of experience	Section 9 – TP updated following survey results	T,S	1	1
Are barriers to implementation discussed with amelioration measures proposed	Section 9 – measures discussed if target not met	T,R,A	1	2
Are proposals for long term monitoring included	5 years.	T,S	1	1
Are the proposals for implementing and managing the plan in the longer term (5-15years) clear? e.g residents groups	Section 7 – likely to be a residents group or a management company	T,S	1	2
Roles and responsibilities			**5**	**5**
Is there a steering / management group to over see the development of the plan	Section 8 – TPC / Developer	T,C	1	1

Have sales staff been trained and provided with information about promoting the travel plan	Section 8. Not at the moment, however commitment that they will be has been included.	T,C	1	1
Is a Travel plan co-ordinator in place or is there agreement on when a co-ordinator will be in place. Will it be a full or part time role?	Section 7. Part time	T,C	2	2
Are staffing implications of delivering the plan made clear especially if the developer will not have a continued presence on site	Section 8	T,A,C	1	1
Awareness, promotion and marketing			**6**	**6**
What measures are in place to ensure that the travel plan is promoted over a sustained period of time (e.g. newsletters., events, websites).	Section 7	A,C,S	3	3
Are promotional events coordinated with national and local events	Section 7	R,A	2	2
Is there a mechanism for disseminating results of the survey	Section 9	T	1	1
Funding			**7**	**7**
Are sources of funding (at an appropriate scale) identified for delivery of the action plan	Table 10.1	T,R,C	2	2
Is the funding of the travel plan co-ordinator role clear	Table 10.1	T,R,C	2	2

Is there funding allocated for promotional events and marketing	Table 10.1	T,R,C	2	2
is funding allocated for the requirement of ongoing monitoring of the plan	Table 10.1		1	1
Deliverability / Enforceability			**5**	**10**
Is a Section 106 agreement drafted which ensures delivery of the travel plan	N/A – TP assumes S106 will be entered into. Section 1.	T,E	1	2
Is there clarity on what needs to be done by when and appropriate incentives / sanctions in place to enforce the agreement	Table 8.1	T,E	1	3
Is the travel plan explicit in terms of objectives, management, monitoring and review?	Yes	T,E	2	4
Are any arrangements in place for change in ownership of properties	N/A – TPC role to cover all dwelling regardless of change in owenership	T,E,S	1	1
Total			**86**	**105**

Introduction

April 2018 Edition

This Travel Guide has been produced to provide you with information on the range of transport choices in your area. It includes details of all bus, train, coach and other types of transport.

Please note that bus times may change at short notice and if your journey time is critical you are advised to call Traveline.

Most bus or train operators run Sunday or special services on Public or Bank Holidays, including other days around Christmas and the New Year. Check with Traveline before you travel.

The bus services shown are not operated by Hampshire County Council. We cannot accept responsibility for any loss, damage, injury or inconvenience caused by the cancellation, delay or diversion of a service.

If you have a suggestion or complaint to make about a service please contact the relevant operator. Should the operator fail to provide a satisfactory reply, then contact Bus Users UK or Transport Focus. If it is a bus service supported by the County Council (identifiable by a ) on the timetable we would also like to hear from you. Write to Head of Passenger Transport, Hampshire County Council, Economy, Transport and Environment, The Castle, Winchester, SO23 8UD or email ptgenquiries@hants.gov.uk

Summary of Main Changes

Please find below details of services that have changed since this guide was last produced including the date on which they changed.

First 7A/7C
Afternoon journeys retimed (03.07.17)

Stagecoach 20
Revised timetable (23.07.17)

Stagecoach 21
Revised timetable with additional morning and evening journeys (23.07.17)

Stagecoach 23
Timetable revised to extend morning and evening journeys to and from Rectory Avenue Farlington, previously starting and finishing at South Road Drayton (23.07.17)

Emsworth & District
Cancellation of the following services: 28, 28A, 147, 635, 636 and 639 (14.04.18)

Stagecoach 39
Revised timetable (28.01.18)

Emsworth & District 54
This will now be operated by Stagecoach to a revised timetable (15.04.18)

National Express 031
Revised timetable and will now serve Heathrow Airport (04.09.17)

Rail Timetables
Up to date rail timetables were not available at the time of going to print.

Please visit www. nationalrail.co.uk for further information.

Services 32, 36 and 42 are financially supported by Hampshire County Council.

A carshare is similar to a bus service except that a taxi/car picks up pre-booked passengers instead of a bus. Fares are similar to bus fares and concessionary passes may be used on the services in accordance with the rules of the scheme.

For more information please call 01962 846786 or go to www.hants.gov.uk/taxishares

my Journey
HELPING HAMPSHIRE GET AROUND

My Journey is a travel awareness campaign delivered by local councils and partners, with funding from the Department for Transport, that seeks to encourage Hampshire residents to consider all the different travel choices and options open to them for local journeys. For more information visit www.myjourneyhampshire.com

bus users UK

Bus Users UK is a voluntary, non-party political organisation to protect and promote the interests of bus passengers.

It campaigns for quality bus networks which are convenient and easy to use for all sections of the community

It works to increase the influence of bus users on local and national government decisions about public transport as well as to develop better communication between passengers and the providers of bus services.

It publishes a quarterly newsletter 'Bus User'.

Membership is open to all bus users and groups who share our aims. For further information and membership forms write to:

Bus Users UK, Victoria Charity Centre, 11 Belgrave Road, London SW1 1RB

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

APPENDIX G

Sample Travel Survey Form

Please complete the questions below for all occupants in your property during the time of the survey. Some questions are relevant to all members of the household and spaces have been provided so details for up to five members of the household can be entered. If there are more than five household members, please complete for the five eldest household members.

1. What type of property do you live in?

- House/ bungalow ☐
- Flat/ apartment/ maisonette ☐
