

## Amendment to Planning Statement accompanying Planning Application APP/18/00845 at Former Oak Park School, Leigh Road, Havant

Updated paragraph 3.27 is below, and a revised Appendix A is attached.

- 3.27 The proposed works will involve around 8-10 vehicles at most and take a few weeks to complete. The biggest of these vehicles will be low loader lorries to carry the soakaway tube, the large stones, and the tarmac and kerb stones for the road construction. No articulated lorries will be required. This is not considered to result in a significant increase in traffic. The proposed route for construction vehicles is shown on the plan in Appendix A. They will exit the B2149 at Crosslands Drive, then take Old Copse Road, Lavant Drive and the upper part of Leigh Road to the site entrance. These roads are wide large roads with footpaths and considered appropriate for low loader lorries and small vans.
