Comments

The Traffic Team would raise concern that the minimum amount of car park spaces for this development has not been met, using the HBC Parking Supplementary Planning Document.

If permitted the Traffic Team would like to request that provision is made for a sum no less than £5000 (plus the costs associated with advertising the proposals and any works) to be provided by the developer to be set aside to allow a TRO to be processed at any time during the period beginning from the commencement of development and ending 5 years from practical completion of the development, to ensure that any parking from the development does not interfere with the capacity, operation or safety of the new road layout or adjoining local highway network.
