

I have been asked to assist my colleague Craig Burchett with the above project.

Please could I have an update on what the current position of the application is?

I have seen that the Conservation Officer's comments have been uploaded onto the website. I have reviewed the comments and also gone through the responses DHP provided to previous comments made (attached for your convenience).

It is my understanding after reading the documents that all of the Conservation Officers issues raised on the proposals have been/or will be addressed by DHP and therefore have been agreed.

On this basis, please could you confirm that the works will be granted permission? We would be happy for you to include the attached comments to the approval as conditions and we will ensure that the works do not deviate from what has been agreed.

If you have any queries or require any more information please do not hesitate to contact me.

Kind Regards,

Mark Dibben
