

DETAILS OF EXTRACTION / VENTILATION FAN

The only change to the current property , will be to add a Ventilation Fan similar to the one shown below in the future kitchen area (used currently as a Storage area) (*shown in the floor plan*).

The dimensions of the fan are : 1.5 (Width) x 1.1 m (Depth)
Height : 500 mm (back) x 250mm (front)
Fan diameter : 150mm

The hood of the fan will come out (as shown in the photo) to the patio .

The patio is placed between the 2 buildings and it will not affect any neighbours .

It is an unused patio from the neighbours and no people are passing by from there.
