Afternoon Rachael,

I have been asked to take a look at the above planning application as it appears no one has commented on it from a traffic team perspective. I realise that the date for comments has closed.

From a traffic perspective we would raise concerns that there appears to be insufficient parking for large vehicles ie: a hearse to park up without obstructing the highway or obstructing vehicular access for the adjoining property.

We request that mechanisms are put in place to allow the Traffic Team to request funds, in order to implement any parking restrictions by means of Traffic Regulation Orders on the new or surrounding road networks, to minimise the possibility of obstructive and unsafe parking practices by road users within a period not exceeding 5 years from the completion of the development with costs not to exceed £5000. Plus, any addition works and advertising costs.

Regards

Kevin Chappell
