Subject: 18-006 - 15 Langstone Rd, Havant, your ref 18/00897

Dear Mr Marshall,

Re: 15 Langstone Rd, Havant, your ref 18/00897

Further to your recent discussions with Spencer Bryan of Paul Basham Associates, in which you advised that a Road Safety Audit and (if required) Designers Response would be needed as part of this application; I now attach the RSA report which concludes that there are no highways issues arising from the proposed scheme and access. A designers response is therefore not required and we ask that you now kindly confirm that you have no objection to the scheme.

You also confirmed that you would be happy for the requirement for both a license to construct the access, and the transport management plan to be made a condition of permission. Thank you for your assistance in this respect.

I have copied the planning officer, Rachael McMurray into this email for reference, in order that these findings be taken into account as part of the officers report for delegated decision.

If you have any queries, please don't hesitate to contact me, or indeed Paul Basham Associates directly; the contacts there being Spencer Bryan and Julie Jarvis, again copied into this message.

Kind regards

Chris Purdy BA Arch
Associate
