Dear Mr marshall.

I have notice that you have commented on our proposed garage conversion to salon regarding the parking issue with clients.

The woking hours of our small salon will be 10am-3pm mon to thurs and some friday on a 45min appointment with 15mins preparing for next client,so if fully booked 5 clients a day within the working day.I will operate one client basis at a time as im working on my own so if they arrive by car there will be only be one car at a time on the drive.The dive will be able to hold three cars and can be easily reversed into all reversed out of as we do on a daily basis as the road is not busy.If you wanted to drive into the drive and leave the drive on a forward gear the drive would hold two cars as we only have one car ourselves there would be space for clients to use the drive if they needed to.There is no parking restrictions in park av and there is also spaces in front of the house,but as i will be only having one client at a time our parking in the drive would be suitable and will have no impact to increase levels of cars in park avenue.If you still need plans who do i send them to you or my case officer.

Kind Regards Mr/Mrs Dickinson
