

MS/104HR/02

PHOTO'S OF WORK WHICH HAS ALREADY BEEN COMPLETED BEFORE WE WERE AWARE THAT PLANNING PERMISSION WAS REQUIRED. THE STEELS WHICH YOU CAN SEE IN THE PHOTOGRAPHS DEMONSTRATE THE INTENDED HEIGHT OF THE PILLARS TO WHICH THE FENCE PANELS/GATES WILL BE FIXED. THERE WILL BE 5 PILLARS IN TOTAL WHICH WILL BE TO A HEIGHT OF 1.8 METRES.

THIS HEIGHT HAS BEEN CHOSEN AS THE PURPOSE OF THIS STRUCTURE IS TO TRY TO BLOCK OUT SOME OF THE TRAFFIC NOISE FROM THE EXTREMELY BUSY ROAD. WE ARE UNABLE TO HAVE OUR FRONT WINDOWS OPEN IN THE SUMMER DUE TO THE NOISE.

THE SECOND PURPOSE OF THIS STRUCTURE IS TO GIVE US EXTRA SECURITY. WE HAVE BEEN BURGLED THIS YEAR AND HAVE PREVIOUSLY HAD DAMAGE CAUSED TO THE BAY WINDOW WHEN A BRICK WAS THROWN AT IT.
