PLAIN TILE

Redland's range of concrete plain tiles are quick and easy to lay and offer great versatility and scope for varied effects.

The tile features a double camber from side to side as well as from head to tail which textures the roof adding rich detail to a building.

Tiles are available in a wide range of different surface finishes, including smooth, sanded, painted and granular to blend with traditional roofing materials throughout the country.

REDLAND 49

The Redland 49 has defined the roofscapes of London for over half a century, with its unique camber adding both strength and aesthetic appeal.

A smaller format offers a light unit weight and a tile that is easy to handle and install. Redland 49 is thus an extremely economical choice of roofing material.
