7 **Planning Considerations**

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

- 7.3 This application to undertake works to trees in the garden of 71A Durley Avenue relates to the proposed pruning of a number of small suppressed trees that have been routinely managed as what could be described as 'small ornamental' trees.

Works are acceptable for these trees and they have no public visual amenity value.
