Comments

I have reviewed the re-submission supporting documents / amended scheme. As regards air quality / contamination, I have noted no material changes that would lead me to any conclusion other than that reached under the prior application. Please refer to comments from Environmental Health made under application number APP/17/01073 for detail on the rationale for my position of 'no adverse comments' on the proposed scheme.

Further comment may be forthcoming from Environmental Health as regards nuisance issues (noise / light etc.), one of my colleagues has been allocated this application to make comment on these matters (if necessary).
