7 **Planning Considerations**

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

7.3 The tree subject of this application is encroaching the dwelling and front garden. The works proposed will allow for harmony between the tree, dwelling and people without having a negative effect on the health of the tree or reducing the public amenity value currently offered.

No objections to the application have been received.
