Thank you for consulting me on this application for the variation of Condition B6. It is not clear but I assume this relates solely to Plot 3a (there is no covering letter on HBC's planning pages). It is also unclear exactly what changes, if any, this variation application has in respect to the previously-submitted ecological assessment. There is no updated/amended ecological information and therefore, without this, I am unable to provide comment on the acceptability of the amended proposals.

If you have any queries please don't hesitate to contact me.

Kind regards,

Tristan
