From a landscape perspective we have the following comments in relation to the discharge of conditions:

Condition 8

- No further comments.

Condition 9

- No further comments.

Condition 10

- The arrangement of boundary treatments seems pragmatic, however the specification of the boundary treatments on the Boundary Treatments plan do not give sufficient detail to fully understand what is being proposed. As such we require elevation drawings will to be submitted to offer greater detail on the specification.

Boundary details requiring submission of fully annotated plans at sufficient scale showing the locations of existing, retained and proposed new boundary treatments, with scaled elevation drawings to show height, design, materials, type and colour of proposed new walling / fencing or other type of enclosure and associated gates.
