Comment Reasons:

Comment: This tree hasn't been trimmed in 20 years. In June 2017 a representative from the council tree department inspected it and said that it needed reducing by 60%. Lifting the crown by 40% is completely ineffective. It is so huge, during high winds large pieces fall off onto our drive making it very dangerous to enter and leave our property. The loss of light is considerable to neighbouring houses. As we have already experienced 2 trees fall and block our driveway, does someone need to be injured or killed before something is done about this tree
