Comments

Dear Mrs McMurray,

Thank you for your consultation. I note that archaeological issues regarding this site were addressed at the outline stage and then in association with application 13/00911. The site was also the subject to an archaeological survey in 2006 which did not reveal any archaeological evidence, indeed it suggested the site has been truncated by past development. In the light of this evidence I would not wish to raise any archaeological issues in this instance.

Yours sincerely,

Neil J. Adam BA ACIfA
