

Dear Rachel

Tegular blocks have been chosen as they are self draining. The area next to it is grass so any excess will run off and drain naturally.

Regards
Judith Charles

Good afternoon Mrs Charles,

I am writing with regards to the above application in respect of Condition 5.

The submitted plan and information does not appear to address the following requirement of Condition 5:

“The agreed area shall be constructed of porous materials, or provision shall be made to direct run-off water from the hard surface to a permeable or porous area or surface within the curtilage of the dwellinghouse.”

Please can a revised plan and/or supporting information that addresses this point be submitted at your earliest convenience.

Kind regards,

Rachel Ballam
