ORDNANCE SURVEY PLAN

The historical maps shown were produced from the Ordnance Survey's 1:10,000 vector raster mapping. These maps are derived from Landlink, which was published in 1978.

The data is taken from a number of buildings, trees and other features. Road names are also included. Symbols with the names of buildings and other features are also included. The data is taken from a number of buildings, trees and other features. Road names are also included. Symbols with the names of buildings and other features are also included.
