7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Appropriateness of design and impact on the character of the area
- (iii) Effect on neighbouring properties

(i) Principle of development

7.2 The application site is located within the defined urban area, therefore development is considered acceptable in principle subject to development management criteria.

(ii) Appropriateness of design and impact on the character of the area

7.3 The proposal is for the addition of a new window to the inner northern elevation of the building which overlooks the car port. The design and appearance of the proposal is judged appropriate in context to the main building meeting the requirements of policy CS16 of the HBLP (Core Strategy) and is considered to be acceptable. It is therefore deemed there would be no adverse impact on the existing streetscene or the visual amenity of the locality.

(iii) Effect on neighbouring properties

7.4 The proposed new window is relatively small and would result in a minor addition to the facade of the property which already has existing window, with the outlook over the car port associated with Vista Court. It is therefore deemed the addition of a new window would not result in any harmful impact to any of the neighbouring properties.

- 7.5 Consequently, it is considered that the proposal is unlikely to appear overbearing or lead to overlooking and would have limited and acceptable impact on the properties immediately adjacent to the application site and the properties opposite or to the rear, meeting the requirements of Policy CS16 of the HBLP (Core Strategy). It is noted no letters of objection were received with respect to the scheme.

8 **Conclusion**

- 8.1 The scale, siting and design of the proposal would have limited and acceptable impact on the neighbours and is therefore considered to be appropriate and recommended for approval.
