Subject: RE: FOI (Forty Acres FOI) - CAS-252327-C5G3V4

Dear Steve

Thank you for your enquiry. I believe that the response which you're requesting is the Environmental Impact Assessment (EIA) screening opinion letter which was sent to Barratt David Wilson Homes on 4th January 2018. This is available on our website at <https://www.havant.gov.uk/screening-and-scoping-opinions>.

If you would like to find out more about the EIA process and what is involved, the best place to look is the Government guidance on the topic which is available at <https://www.gov.uk/guidance/environmental-impact-assessment>.

Please note that we have dealt with your request as a business as usual enquiry (as opposed to an enquiry under the Freedom of Information Regulations) as the information that you've requested is available publicly. If you have any further queries regarding the proposed development at 40 Acres, as you know Lewis Oliver is the case officer and is best placed to answer your query.

All the best

David

Subject: Comments on planning statement 40 acres freedom of information

Could I please see this document under the freedom of information as it affects my immediate area

A formal response was received from Havant Borough Council on 4th January 2018 which concludes that the schemes scale, nature and location would be unlikely to result in significant environmental effects and as such

associated proposed assessments to accompany a planning application and likely mitigation measures is not anticipated. The Local Planning Authority considers that the proposals submitted for this site was not EIA Development.”

Best Regards

Steve Murphy
