For attention of Mrs. D. Haywood
Principal Planner

8 July 2018

Dear Mrs Haywood,

Re: 67 Southwood Road, Hayling Island, PO11 9PT

My client wishes to confirm that the Marley Mendip tile colour Dark Red granular cannot be used on roof pitches lower than 25 degrees, as notified to you by email a few days ago.

Therefore, Marley have informed my client that the Mendip smooth tile can be used on roof pitches down to 17.5 degrees, the pitch we have on the Southwood Road property is 22.5 degrees.

This letter is to confirm the condition discharge of roof tiles is to be changed to Marley Mendip tiles colour, as you requested, to be brown (smooth), my client will pay the £29.00 fee next week.

Marley have given the website link for the tiles as follows:-
(<https://www.marleyeternit.co.uk/Roofing/Concrete-Tiles/Mendip-Interlocking-Tile.aspx>)

We look forward to receiving your approval of the discharge in due course, thank you for your assistance.

Yours Sincerely,

pmcmahon.
